TWO CENTS

Expect a Settlement of Alaskan Dispute.

CHAMBERLAIN SUBMITTED PLANS.

Known In Washington That Arrangemeets For a Modus Vivendi Were Receiving Choate's Attention-If One 1s Arranged It Will Improve Situation.

LONDON, June 8.-A high authority of the colonial office said that the negotiations with reference to the Alaskan boundary were of the rosiest possible

After the interview which the United States ambassador, Mr. Joseph Choate, held with the Marquis of Salisbury, at the foreign office, the lines of a prospective settlement and for carrying on the discussion in the high commission were formally submitted by the secretary of state for the colonies, Mr. Joseph Cham-

WASHINGTON, June 8. — Officials learned the details of the latest negotiations in London, referred to in cable dispatches, and Secretary Hay and the British charge d'affaires, Mr. Tower, conferred on the subject. The details of the proposition were not made public.

It is known that the arrangements for a modus vivendi to govern the relations of the United States and Canada on the Alaskan boundary is receiving a great deal of Ambassador Choate's attention. The basis for the temporary delimitation of the boundary in the neighborhood of the passes leading into the Klondike from the Lynn canal will, if the present effort succeeds, be on White pass on the east and on Chilkoot pass in the middle, at the points where the Canadian customs houses were established about 18 months ago, On the Dalton trail the point has not yet been selected and the Canadians want a good

While Pyramid harbor is not insisted upon at this juncture, the Canadians claim in this quarter includes the important Indian village of Klukwan, a town that has long been under the protection of the United States, and which our government is indisposed to surrender, even temporarily, into Canadian control. If this difficulty can be solved and a divisional point located on the Dalton trail there is no doubt that a modus will be the outcome. This would remove the chances of hostile collisions on the border and postpone until calmer feelings prevail, the permanent settlement. With this Alaskan boundary controversy removed from the subjects for consideration by the joint high commission there is every reason to believe that a treaty can be framed satisfactory to both parties in time for sub-

mission to the senate at its next session. It is said, however, that too much assurance should not be taken that a complete accord is certain. The officials agree with the London view that the outlook is rather brighter, because negotiations are on again, but they qualify this by saying that the agreement is not yet concluded, and that when concluded it will still leave much to be settled by future negotiations.

In view of the fact that the protocol recording the proceedings of the joint high commission in Washington on Feb. 18 last has been made public in the Canadian legislature and an abstract was published in London as well as in this country, the state department gave

out the entire protocol. The record shows that the joint commission met at about 10 o'clock that morning; that the British side proposed arbitration and that the Americans accepted the proposition in general, using it as a basis for a treaty, as offered by the British. However, it is shown that when the Americans offered an amendment the British side promptly refused to accept it, and, without affording further opportunity for the erection of an arbitration treaty, stopped the negotiations and referred the matter to their own government.

Arbitration Plan of Russia.

THE HAGUE, June 8.—Russia's scheme for a permanent arbitration tribunal contemplates the institution of a certain number of years, to which will be submitted the obligatory arbitration cases enumerated in article 10 of the Russian prsject, unless the powers in the conflict agree upon a special tribunal to settle their differences.

Said Glucose Trust Threatened Him.

CHICAGO, June 8.—Senator Mason of the pure food commission says as a result of the investigation a bill will be prepared, compelling manufacturers to label goods what they are; for instance chicory must not be labeled coffee, but chicory. He said that, on account of the investigation, the Glucose trust had threatened to ruin him.

Evidently Murdered by Robbers.

CHICAGO, June 8.-Martin Meier, a wealthy and eccentric Swiss, was found dead in a house on Fifty-seventh street which he occupied alone. He was evidently murdered for the purpose of robbery.

Quesada Appointed Commissioner. HAVANA, June 8.—Senor Quesada has been appointed commissioner to the United States government.

RAILROADERS ADJOURNED.

Speeches Heard and a Picnic Held at Cumberland-Next Meeting at Connellsville.

CUMBERLAND, Md., June 8 .- After a secret session of several hours' duration the railroad men's convention adjourned to meet in August of this year in Connellsville, Pa. Matters looking to the betterment of the condition of the railroad employe were talked over, among them being a project to secure positions for men who are crippled white attending to their duties, at a salary commensurate with their original pay.

Mrs. W. A. Murdock of Chicago, grand president of the ladies' auxiliary to the Brotherhook of Locomotive Engineers, and Mrs. Cassell of Peoria, Ills., grand vice president, delivered addresses, as did Mrs. Mary C. Orr of Peoria, Ills., general secretary and treasurer of the voluntary relief association of the Grand International Auxiliary to the Brotherhood of Locomotive Engineers.

C. A, Wilson of Phillipsburg, N. J., second grand master of the Brotherhood of Locomotive Firemen, gave a stirring talk

W. Edgar Frasher of Wilmington, Del., chairman of the general commit-tee Order of Railway Telegraphers for the Baltimore and Ohio system, gave a brief talk; L. S. Coffin, ex-railroad commissioner of Iowa, explained the absence of most of the grand officers, who were called to Boston to settle some difficulty on the Boston and Maine line.

A monster picnic was held at Narrows park.

TO ORGANIZE CLUBS.

Clark Ordered to Proceed by a Metallic League Committee-Tarvin Chosen Chairman.

CINCINNATI, June 8.—At the convention of the Bimetallic League of the Ohio valley in Louisville last week the following committee was appointed to confer with the national Democratic committee at its meeting in Chicago, July 20: James P. Tarvin, Covington; John T. Altgeld, Chicago; George Fred Williams, Boston; E. B. Finley, Bucyrus, O.; John Overmeyer, North Vernon, Ind.; W. G. Femonin, Louisville; Allen W. Clark, Greensburg, Ind.

This committee met in Covington and organized with Judge Tarvin as chairman and Allen W. Clark as secretary. A majority of the members of the committee were present and the others voted by telegraph. This is the committee of the league on organization and Secretary Clark was directed to proceed with his work in organizing clubs and to prepare such data as the committee may be able to present to the national committee at the joint conference

in Chicago, next month. A WAGE CONFERENCE.

Amalgamated Men and Manufacturers Held a Conference.

DBTROIT, June 8.—The wage committee of the Amalgamated Association of Iron, Steel and Tin Workers and representatives of the iron and steel manufacturers returned to Detroit and began their final conference upon settlement of the wage scales for the coming year. Eighteen of he workers, including President Shaffer and Secretary and Treasurer Williams, are present. Following are the iron and steel men:

James Nutt of the Republic Iron and Steel company, W. E. Taylor of the American Hoop and Steel company and J. S. Shields, all of Youngstown, O.; George D. Wick, vice president of the Republic Iron and Steel company, Chicago; George L. Reis of the Federal Steel and Iron company, Milwaukee.

KRUGER AND MILNER DISAGREED.

Conference Held at Bleemfontain Not Successful.

BRUSSELS, June 8.-Dr. Leyds, the European representative of the Transvaal, received an official dispatch from Pretoria confirming the report of the failure of President Kruger and the British high commissioner, Sir Alfred Milner, to reach an agreement at the conference just held at Bloemfontain.

It is added that, although President Kruger offered important concessions, he made them contingent upon the British acceptance of the principle of arbitration on the differences existing between Great Britain and the Transvaal. This Great Britain heretofore has invariably refused on the ground that it would be an acknowledgement of the equalities of the two countries.

New York to Get Kidnapers.

New York, June 8.—Bella Anderson, alias Carrie Jones, the kidnaper, was locked up in the Mercer Street station, having been extradited from New Jersey. She will be arraigned in the general sessions court. District Attorney Asa Bird Gardiner said that George Barrow and his wife, the kidnapers of Marion Clarke now in jail at New City, would be brought here today and turned ever to the New York authorities.

Senator Jones Felt Much Better.

WASHINGTON, June 8.-A letter was received here from Senator James K. Jones of Arkansas, chairman of the national Democratic committee, who went abroad some time ago for his health, in which he said that he had been so greatly benefited he felt better than he had for the past ten years.

A large number of additional letters and telegrams of condolence were received by Vice President Green, among them being one from Robert T. Lincoln, son of the martyred president, and a director of the Pullman Palace Car

company. The minute adopted by the board was largely a review of Mr. Thomson's life and rise from a boy in the Altoona shops to the head of the entire system. In concluding it reads:

"In placing this minute of Mr. Thomson's death on the records of the company the board is but attempting to do justice to the exceptional ability, devotion to duty, keen perception, sound judgment and prompt execution which made him so important a factor, not only in our own councils but in the deliberations of the trunk lines and other Little Relief Promised For the Country important railway assemblages, as well as to the charming traits of personal character that won for him the affection and esteem of his associates, and make his loss one to be deeply and widely de-

THOMSON'S SUCCESSOR.

Reported Green Is to Be Promoted and Will Accept.

PHILADELPHIA, June 8. - It was learned, from what is believed to be a trustworthy source, that when the directors of the Pennsylvania railroad fill the position made vacant by the death of President Frank Thomson, they will make no departure from the time-honored custom of advancing the next in rank of the executive officers of the company. This would result in the election of First Vice president John P. Green to the presidency, and from the same source of information it is learned that Mr. Green will accept the place. Second Vice President Charles E. Pugh will be made first vice president and Third Vice President S. M. Prevost will be made second vice president. A special meeting may be called to

fill the vacancy on either Friday or Saturday of this week.

WERE HEALED THROUGH PRAYER.

Nearly Every Member of a Congregation So Testified In Boston.

Boston, June 8.- The Christian Science gatherings in this city, beginning with the communion services last Sunday, ended with the usual weekly testimonial meeting last night, which was held in Tremont Temple.

Judge S. J. Hanna, who presided, asked those in the audience who knew of a certainty that they had been healed through Christian science to rise. Practically everyone in the audience arose, and a similar response was made each and a similar response was made cach time when he asked an expression of their belief in "Almighty God as the suddenly in this city of heart failure.

WILL TOUR PHILIPPINES.

Prof. Schurmen on the Gunboat Bennington lo Make a Voyage In Southern Islands.

Manila, June 8.-Prof. Schurman of the Philippine commission was expected to sail from here on Friday on board the United States gunboat Bennington for a three weeks' trip among the southern islands. The gunboat Petrel has also been placed at the professor's disposal, and he will visit Iloilo, Cebu, Negros and Sulu. He expects to investigate the local governments and have talks with the leading natives. He will likely sail for home in July.

The other members of the commission will remain here for some months longer. General Hall's brigade left Morong Tuesday, marching along the lake to Taytay. The troops encountered practically no opposition on entering several small towns, though a few insurgent sharpshooters hung about the flanks of the brigade.

Morong, which is an important port, will be garrisoned temporarily by the North Dakota regiment and the Fourth cavalry.

TENTH SOON TO START.

Corbin Said All Volunteers Would Leave Before July 1.

GREENSBURG, Pa., June 8.-G. N. Bailey of South Greensburg, who has two sons in the Tenth regiment, Privates J. R. and W. N. Bailey, a few days ago wrote to the war department asking the probable date of the volunteers' home coming. Assistant Adjutant General Carter sent this reply: "The Tenth Pennsylvania regiment

of volunteers is now under orders to return to the United States for muster out, but the department is unable to fix the date for its sailing. However, it is safe to say that all of the volunteer regiments now in the Philippine islands will leave Manila before July 1."

No Regular Naval Transport.

Washington, June 8.—The navy department ordered the Buffalo to be put out of commission, thus indicating the abandonment of the project of maintaining a regular naval transport service across the Atlantic and by way of the Mediterranean to Manila.

Commander Ackley III.

WASHINGTON, June 8 .- A cablegram from Manila to the navy department states that Commander Seth Ackley, who only recently was sent out to take command of the U.S.S. Concord, has fallen ill and been sent to the naval hospital at Yokohama.

CONTINUED HOT WEATHER.

Unless Local Showers Occur.

Washington, June 8.-The maximum temperature was 97, a degree hotter than the day before. The thunderstorm which had been promised by the weather bureau as an interlude in the long hot spell apparently was no nearer last night than it was 24 hours before. The city suffered intensely with the heat, but the absence of casualties was considered remarkable. There was still hope for a storm that would clear the air, but that hope was beginning to grow more slender. The general situa-tion was improved on the North Atlan-

There was a drop of 32 degrees in 24 hours at Boston, and New York last night was reported 6 degrees cooler than the night before. On the other hand, the maximum temperature had risen at points south, Norfolk and Charlotte being each 98, Lynchburg 96 and Nashville and Chattanooga each 94. Little relief was promised the country at large except from local storms, all the indications being that the hot wave was as long lived as it was widespread.

Police Official Accused of Robbery.

CHICAGO, June 8.—The old charges implicating a high police official in the Schrage bond robbery were revived in the criminal court when "Red" Chris Strook was called for trial before Judge Gary. In an affidavit the prisoner swore that if the case was postponed until the next term he would produce a witness who would give testimony clearing himself and fastening the guilt upon Muldoon, Goslon, "Sleepy" Burke, Baker, Hunt and a police official. The witness is John A. Riley of Philadelphia, formerly a bondbroker in Chicago. As Judge Gary refused to continue the trial, representatives of the defense started for the east and will endeavor to bring Riley back with them.

Augustin Daly Died.

PARIS, June 8 .- Augustin Daly, the

Officers Must Now Pass Medical Examination.

WILL BE STRICTLY ENFORCED.

This to Be Done In Reorganizing the the New Guard of the State-Members of the Examining Board All Were In the Service During the Late War.

Columbus, June 8 .- The national guard officers in Ohio must hereafter pass a mental examination, as well as a physical, before they are commissioned as such. An order was issued. The examining board consists of Major John C. Speaks, Major and Surgeon H. M. W. Core, Captain George Leonard and Second Lieutenant J. M. Woltse, recorder, all of whom were in the service during the late war. This order is entirely new and will be strictly enforced in reorganizing the new national guard of the state.

DEFAULT JUDGMENTS TAKEN.

Action Involving Nearly \$9,500,000 In Hocking Valley Litigation.

COLUMBUS, June 8.—Default judgments were taken in the United States court against the Columbus, Hocking Valley and Toledo Railroad company aggregating nearly \$9,500,000.

The judgments were secured soon after the opening of the June session of the court, and the proceedings were so quietly conducted that very few were aware of the transaction or of the vast interests which were involved in it.

The cases and amounts were: Security Trust company, \$2,111,786; M. E, Ingalls, Jr., et al., \$506,093; M. E. Ingalls, Jr., et al., \$2,276,949

These deficiencies arose under various series of bonds of the railway company, recently sold under foreclosure.

A. V. Rice of Ohio Appointed.

WASHINGTON, June 8.-A. V. Rice of Ohio was appointed a special agent of the census bureau. to act as purchasing agent. Mr. Rice was a member of the Forty-fourth and Forty-fifth congresses, was a brigadier general of volunteers in the Civil war and is a personal friend of the president. He was stated to be a Gold Democrat.

Zeltner Murder Case.

TOLEDO, June 8.—The state finished its evidence in the murder case of Paul Zeltner, now on trial at Bowling Green. The defense made a stubborn resistance, yet not denying the killing. Later the defense called its first witness and sought to prove the good character of the accused. It was shown that he frequently carried a revolver.

Sewer Pipe Strike Settled.

STEUBENVILLE, O., June 8.—The big strike of sewer pipe workmen of this valley was settled at a conference and all works have resumed operations. The workmen accepted an advance of 15 cents per day.

A Banquet to Soldiers.

TOLEDO, June 8.—The Sixth Ohio regiment, just returned from Cuba, was tendered a grand banquet and reception by the citizens of Toledo. Covers were laid for ove. 500.

HANNA STILL AT THE HELM.

Emphatically Denied He Would Resign as Republican National Chairman.

CLEVELAND, June 8.—Senator Hanna flatly denied the report sent from Washington that he intended to retire from the chairmanship of the national Relican committee. "It's a sheer fabrication," said the

senator. "I don't see how or by whom the story could have been started. There is no basis for it. I shall retire from the chairmanship when my term is up, of course, but you can say that I fully expect to call the next national convention to order."

Expects Reed to Resign.

New York, June 8.-A member of the law firm of Sampson, Thatcher & Barnum said that the published story that Speaker Reed would remain a member of congress, although giving up the speakership, seemed to him ridiculous, although he had not seen Mr. Reed for some time. Mr. Thatcher said that it was his expectation that Speaker Reed would resign from congress.

WILL TOUR PHILIPPINES.

Prof. Schurmen on the Gunboat Bennington lo Make a Voyage In Southern Islands.

Manila, June 8.-Prof. Schurman of the Philippine commission was expected to sail from here on Friday on board the United States gunboat Bennington for a three weeks' trip among the southern islands. The gunboat Petrel has also been placed at the professor's disposal, and he will visit Iloilo, Cebu, Negros and Sulu. He expects to investigate the local governments and have talks with the leading natives. He will likely sail for home in July.

The other members of the commission will remain here for some months longer. General Hall's brigade left Morong Tuesday, marching along the lake to Taytay. The troops encoun-tered practically no opposition on entering several small towns, though a few insurgent sharpshooters hung about the flanks of the brigade.

Morong, which is an important port, will be garrisoned temporarily by the North Dakota regiment and the Fourth cavalry.

TENTH SOON TO START.

Corbin Said All Volunteers Would Leave Before July 1.

GREENSBURG, Pa., June 8.-G. N. Bailey of South Greensburg, who has two sons in the Tenth regiment, Privates J. R. and W. N. Bailey, a few days ago wrote to the war department; asking the probable date of the volunteers' home coming. Assistant Adjutant General Carter sent this reply:

"The Tenth Pennsylvania regiment of volunteers is now under orders to return to the United States for muster out, but the department is unable to fix the date for its sailing. However, it is safe to say that all of the volunteer regiments now in the Philippine islands will leave Manila before July 1."

May Await Dewey's Opinion.

WASHINGTON, June 8.-When the attention of the secretary of the navy was called to the very small amount of money thus far contributed for a home the immediate friends of the bereaved for Admiral Dewey, he said that he thought it indicated no lack of appreciation of the admiral, but rather an inclination to wait some expression of opinion from him as to whether such a gift would be agreeable to him or not.

No Regular Naval Transport.

Washington, June 8.—The navy department ordered the Buffalo to be put out of commission, thus indicating the abandonment of the project of maintaining a regular naval transport service across the Atlantic and by way of the Mediterranean to Manila.

Commander Ackley Ill.

WASHINGTON, June 8.-A cablegram from Manila to the navy department states that Commander Seth Ackley, who only recently was sent out to take command of the U.S.S. Concord, has fallen ill and been sent to the naval hospital at Yokohama.

CONTINUED HOT WEATHER.

Little Relief Promised For the Country Unless Local Showers Occur.

WASHINGTON, June 8.-The maximum temperature was 97, a degree hotter than the day before. The thunderstorm which had been promised by the weather bureau as an interlude in the long hot spell apparently was no nearer last night than it was 24 hours before. The city suffered intensely with the heat, but the absence of casualties was considered remarkable. There was still hope for a storm that would clear the air, but that hope was beginning to grow more slender. The general situa-tion was improved on the North Atlantic coast.

There was a drop of 32 degrees in 24 hours at Boston, and New York last night was reported 6 degrees cooler than the night before. On the other hand, the maximum temperature had risen at points south, Norfolk and Charlotte being each 98, Lynchburg 96 and Nashville and Chattanooga each 94. Little relief was promised the country at large except from local storms, all the indications being that the hot wave was as long lived as it was widespread.

Police Official Accused of Robbery.

CHICAGO, June 8.—The old charges implicating a high police official in the Schrage bond robbery were revived in the criminal court when "Red" Chris Strook was called for trial before Judge Gary. In an affidavit the prisoner swore that if the case was postponed until the next term he would produce a witness who would give testimony clearing him-self and fastening the guilt upon Mul-doon, Goslon, "Sleepy" Burke, Baker, Hunt and a police official. The witness is John A. Riley of Philadelphia, formerly a bondbroker in Chicago. As Judge Gary refused to continue the trial, representatives of the defense started for the east and will endeavor to bring Riley back with them.

This to Be Done In Reorganizing the the New Guard of the State-Members of the Examining Board All Were In the Service During the Late War.

COLUMBUS, June 8 .- The national guard officers in Ohio must hereafter pass a mental examination, as well as a physical, before they are commissioned as such. An order was issued. The examining board consists of Major John C. Speaks, Major and Surgeon H. M. W. Core, Captain George Leonard and Second Lieutenant J. M. Woltse, recorder, all of whom were in the service during the late war. This order is entirely new and will be strictly enforced in reorganizing the new national guard of the state.

DEFAULT JUDGMENTS TAKEN.

Action Involving Nearly \$9,500,000 In Hocking Valley Litigation.

COLUMBUS, June 8.—Default judgments were taken in the United States court against the Columbus, Hocking Valley and Toledo Railroad company aggregating nearly \$9,500,000.

The judgments were secured soon after the opening of the June session of the court, and the proceedings were so quietly conducted that very few were aware of the transaction or of the vast

A. V. Rice of Ohio Appointed.

Washington, June 8.-A. V. Rice of Ohio was appointed a special agent of the census bureau. to act as purchasing agent. Mr. Rice was a member of the Forty-fourth and Forty-fifth congresses, was a brigadier general of volunteers in the Civil war and is a personal friend of the president. He was stated to be a Gold Democrat.

Zeltner Murder Case.

Toledo, June 8.—The state finished its evidence in the murder case of Zeltner, now on trial at Bowling Green. The defense made a stubborn resistance, yet not denying the killing. Later the defense called its first witness and sought to prove the good character of the accused. It was shown that he frequently carried a revolver.

Sewer Pipe Strike Settled.

STEUBENVILLE, O., June 8.—The big strike of sewer pipe workmen of this valley was settled at a conference and all works have resumed operations. The workmen accepted an advance of 15 cents per day.

A Banquet to Soldiers.

TOLEDO, June 8.—The Sixth Ohio regiment, just returned from Cuba, was tendered a grand banquet and reception by the citizens of Toledo. Covers were laid for ove. 500.

HANNA STILL AT THE HELM.

Emphatically Denied He Would Resign as Republican National Chairman.

CLEVELAND, June 8.—Senator Hanna flatly denied the report sent from Washington that he intended to retire from the chairmanship of the national Re-

lican committee. "It's a sheer fabrication," said the senator. "I don't see how or by whom the story could have been started. There is no basis for it. I shall retire from the chairmanship when my term is up, of course, but you can say that I fully expect to call the next national convention to order."

Expects Reed to Resign. NEW YORK, June 8.-A member of

the law firm of Sampson, Thatcher & Barnum said that the published story that Speaker Reed would remain a member of congress, although giving up the speakership, seemed to him ridiculous, although he had not seen Mr. Reed for some time. Mr. Thatcher said that it was his expectation that Speaker Reed would resign from congress.

Expect a Settlement of Alaskan Dispute.

Known In Washington That Arrangemeets For a Modus Vivendi Were Receiving Choate's Attention-If One 1s Arranged It Will Improve Situation.

LONDON, June 8 .- A high authority of the colonial office said that the negotiations with reference to the Alaskan condition.

After the interview which the United States ambassador, Mr. Joseph Choate. held with the Marquis of Salisbury, at the foreign office, the lines of a prospective settlement and for carrying on the discussion in the high commission were formally submitted by the secretary of state for the colonies, Mr. Joseph Chamberlain.

Washington, June 8. — Officials learned the details of the latest negotiations in London, referred to in cable dispatches, and Secretary Hay and the British charge d'affaires, Mr. Tower, conferred on the subject. The details of the proposition were not made public.

It is known that the arrangements for a modus vivendi to govern the relations of the United States and Canada on the Alaskan boundary is receiving a great deal of Ambassador Choate's attention. ! Clark Ordered to Proceed by a Metallic The basis for the temporary delimitation of the boundary in the neighborhood of the passes leading into the Klondike from the Lynn canal will, if the present effort succeeds, be on White pass on the east and on Chilkoot pass in the middle, at the points where the Canadian customs houses were established about 18 months ago, On the Dalton trail the point has not yet been selected and the Canadians want a good

While Pyramid harbor is not insisted upon at this juncture, the Canadians' claim in this quarter includes the important Indian village of Klukwan, a town that has long been under the protection of the United States, and which our government is indisposed to surrender, even temporarily, into Canadian control. If this difficulty can be solved and a divisional point located on the Dalton trail there is no doubt that a on the border and postpone until calmer feelings prevail, the permanent settle-ment. With this Alaskan boundary controversy removed from the subjects for consideration by the joint high commission there is every reason to believe that a treaty can be framed satisfactory to both parties in time for submission to the senate at its next session.

It is said, however, that too much assurance should not be taken that a complete accord is certain. The officials agree with the London view that the outlook is rather brighter, because negotiations are on again, but they qualify this by saying that the agreement is not yet concluded, and that when concluded it will still leave much to be settled by future negotiations.

In view of the fact that the protocol recording the proceedings of the joint high commission in Washington on Feb. 18 last has been made public in the Canadian legislature and an abstract was published in London as well as in this country, the state department gave out the entire protocol.

The record shows that the joint commission met at about 10 o'clock that morning; that the British side proposed arbitration and that the Americans accepted the proposition in general, using it as a basis for a treaty, as offered by the British. However, it is shown that when the Americans offered an amendment the British side promptly refused to accept it, and, without affording further opportunity for the erection of an arbitration treaty, stopped the negotia-tions and referred the matter to their own government.

Arbitration Plan of Russia.

THE HAGUE, June 8.—Russia's scheme for a permanent arbitration tribunal contemplates the institution of a certain number of years, to which will be submitted the obligatory arbitration cases enumerated in article 10 of the Russian prsject, unless the powers in the conflict agree upon a special tribunal to settle their differences.

Said Glucose Trust Threatened Him.

CHICAGO, June 8.—Senator Mason of the pure food commission says as a result of the investigation a bill will be prepared, compelling manufacturers to label goods what they are; for instance chicory must not be labeled coffee, but chicory. He said that, on account of the investigation, the Glucose trust had threatened to ruin him.

Steel and Tin Workers and representatives of the iron and steel manufacturers returned to Detroit and began their final conference upon settlement of the wage scales for the coming year. Eighteen of he workers, including President Shaffer and Secretary and Treasurer Williams, are present. Following are the iron and steel men:

James Nutt of the Republic Iron and Steel company, W. E. Taylor of the American Hoop and Steel company and J. S. Shields, all of Youngstown, O.; George D. Wick, vice president of the Republic Iron and Steel company, Chicago; George L. Reis of the Federal Steel and Iron company, Milwaukee.

KRUGER AND MILNER DISAGREED.

Conference Held at Bleemfontain Not Successful.

Brussels, June 8.-Dr. Leyds, the European representative of the Transvaal, received an official dispatch from Pretoria confirming the report of the failure of President Kruger and the British high commissioner, Sir Alfred Milner, to reach an agreement at the conference just held at Bloemfontain.

It is added that, although President Kruger offered important concessions, he made them contingent upon the British acceptance of the principle of arbitration on the differences existing between Great Britain and the Transvaal. This Great Britain heretofore has invariably refused on the ground that it would be an acknowledgement of the equalities of the two countries.

New York to Get Kidnapers.

NEW YORK, June 8.—Bella Anderson, alias Carrie Jones, the kidnaper, was locked up in the Mercer Street station, having been extradited from New Jersey. She will be arraigned in the general sessions court. District Attorney Asa Bird Gardiner said that George Barrow and his wife, the kidnapers of Marion Clarke now in jail at New City, would be brought here today and turned ever to the New York authorities.

Senator Jones Felt Much Better.

Washington, June 8.-A letter was received here from Senator James K. Jones of Arkansas, chairman of the national Democratic committee, who went abroad some time ago for his health, in which he said that he had been so greatly benefited he felt better than he had for the past ten years.

THOMSON'S SUCCESSOR.

Reported Green Is to Be Promoted and Will Accept.

PHILADELPHIA, June 8. — It was learned, from what is believed to be a trustworthy source, that when the directors of the Pennsylvania railroad fill the position made vacant by the death of President Frank Thomson, they will make no departure from the time-honored custom of advancing the next in rank of the executive officers of the company. This would result in the election of First Vice president John P. Green to the presidency, and from the same source of information it is learned that Mr. Green will accept the place. Second Vice President Charles E. Pugh will be made first vice president and Third Vice President S. M. Prevost will be made second vice president.

A special meeting may be called to fill the vacancy on either Friday or Saturday of this week.

WORKING FOR

Residents of East End Want the New School.

COMMEND THE SCHOOL BOARD

The Globe Pottery Will Make Extensive Improvements During the July Shut Down--A Small Boy Sunstruck--To Build a New Kiln at the Brick Yard.

The bond issue for building a school house in this part of the city at present is causing considerable. talk, and if the matter was left to East End residents alone it would carry, probably without a dissenting vote. Everybody is talking about the election and the interest that is being taken in the matter is exceeded only by a presidential election. This morning three property owners were discussing the matter when they were approached by a reporter. One of the party ventured this assertion:

"The board of education made a wise move when they selected the lot in Erie street. A better location for a like purpose could not be secured in this part of the city. It is true that the lots will cost in the neighborhood of \$1,400 and the building much more, but I would rather pay 10 or 20 cents a day for each of my children to go to school in the East End than to pay a like amount for them to obtain an education in the city proper. I understand that a land company who want to give the board several lots will object to the building being erected in Erie street. That, I believe, is a foolish idea. The matter of building school houses is left entirely with the board, and everyone living here endorses their selection. The women are taking an active part in the issue and if they could vote Saturday the result would be materially helped. I hope the issue will be carried, for it is more important than the work council did when it improved the hill road."

WILL USE COAL.

The Globe Pottery Company to Make Extensive Improvements.

During the month of July some extensive improvements will be made at the Globe pottery, but as yet all arrangements have not been completed. The plant will be shut down early next month for a period of about six weeks and during that time the glost kilns will be generally overhauled and the gas pipes will be taken out and coal used instead. Most all the potteries are using gas in the glost kilns, but the going back to coal by the Globe company will no doubt be followed by other plants. All the machinery will be overhauled, and minor improvements will be made in every department.

TO DOUBLE THEIR PLANT.

The Brick Yard Will Erect an Additional Kiln.

Alexander Johnson, superintendent of the brick yard, stated yesterday the erection of an additional kiln would be commenced not later than next week. Mr. Johnson said further that the new company was not going to give out the proposed improvements like C. E. Allen did, but when the capacity of the plant needed enlargement the company would go ahead and say nothing. The brick for the new kiln is now being made at the Salineville works which Mr. Johnson is interested in, and will be shipped to East End probably the first of next week. With the new machinery working, the plant will have almost double its present capacity.

I MUST BE IN THE CITY,

And My Business Demands a Central Location.

Therefore I shall be on the lookout when the East Liverpool Land company places those Thompson Hill lots on the market. They tell me that I can start be for several weeks. from the Diamond and reach the location of these lots nicely in four minutes; that the location is a splendid one; that all improvements will be made by the land owners before the lots are placed on sale. I am further assured that prices will be very reasonable. If these statements be true, (and I am assured by reliable and trustworthy business men that they are) then I'll bide my time and erect my home on one of these lots, as I must be centrally located, and will be happy to be saved all the annoyance of grading, paving and other improvements. I'll wait for the sale of the Thompson Hill lots.

WELLSVILLE'S PEOPLE.

Claims 8,000, but the Correct Figures Are About 6,500.

That Wellsville has enjoyed a heathly growth during the past two years is evidenced by the enumeration of school youth just completed by O. C. Sinclair, which foots up almost 1,800. This, allowing a ratio of 41/2, will bring our population to 8,100.—Wellsville Union.

The Union figures somewhat too high. The correct way to estimate on school population is to figure that there are 31/2 people to every child of school age. This would give Wellsville, with 1,743 scholars, a population of 6,100. Figuring 4 people to each male person over 21, the usual way, Wellsville, with 1,799 voters, would have 7,196 of a population. It is therefore safe to figure that the city has about 6,500 people.

RIVER RISING.

The Rains of the Last Few Days Have Caused a Rise.

The wickets at Davis island dam are not yet in position, but they will be within the next 12 hours. At noon yesterday only about 50 wickets needed to be raised. Since the work has been started this has been found to be impossible and the work will now be rushed both night and day. A large number of gasoline lamps have been secured from a Wheeling firm, and if these had arrived yesterday, as expected, the night shift would have been started last night.

The men to work on the night turn have been hired, and the majority of them have been secured in this city. Practically all the force that will work about the shore opposite Market street are from Liverpool, and many men to work at Kenilworth are from Wellsville. No rails have been laid and none will

THE M. E. CHAPEL.

Money Has Been Pledged, but No Collections Made.

Many residents of this side of the river, who some time ago placed their name on a subscription paper for the purpose of assisting in erecting a Methodist Episcopal church, are wondering when they will be asked to pay their amounts. When the matter was agitated several months ago considerable money was pledged and a large number of people wanted the church built at once.

The committee appointed by the official board of the First M. E. church to secure ground for the erection of the building did some work in the matter, but so far the trustees of the church have taken no definite action. It is probable the church will not be built until after the mill is in operation and Chester has more inhabitants than it has at present.

GOVERNMENT OFFICERS

Advised Contractor McNally Not to Throw Dirt Over the Bank.

When the United States snagboat E. A. Woodruff tied to the Market street wharf Tuesday Captain Christian Welsh and four other men went across the river and notified the person in charge of the middle shovel that from now on they must not throw any dirt over the bank. This order is seriously interfering with the work of the road, but as it is against the law, other dumping grounds must be looked for. The dump cars will be put in operation within a few days and the trouble will soon be a thing of the past.

A Strong Foundation.

The excavating for the foundation the new mill is progressing rapidly, and Finley Bros., who have charge of the work, will dig the trenches to a depth of 12 feet. This is made necessary on account of the heavy machinery that will be installed. Although a large force of men are at work, it will be several days before the stonemasons can commence work.

The Shovel Broke.

The steam shovel working on the hillside opposite Market street broke yesterday and it will be several days before it will be put in operation. The break was in the machinery about the bucket.

A New Residence.

The carpenters yesterday completed their work about the new residence owned by Samuel M. Newell, and next week it will be occupied by E. J. Johnson and family.

Mrs. Seevers Improving.

Mrs. Seevers, who is seriously ill at her home in Chester, is somewhat improved over her condition of yesterday. It is now thought she will recover.

The Globe Pottery Will Make Extensive Improvements During the July Shut Down--A Small Boy Sunstruck--To Build a New Kiln at the Brick Yard.

The bond issue for building a school house in this part of the city at present is causing considerable. talk, and if the matter was left to East End residents alone it would carry, probably without a dissenting vote. Everybody is talking about the election and the interest that is being taken in the matter is exceeded only by a presidential election. This morning three property owners were discussing the matter when they were approached by a reporter. One of the party ventured this assertion:

"The board of education made a wise move when they selected the lot in Erie street. A better location for a like purpose could not be secured in this part of the city. It is true that the lots will cost in the neighborhood of \$1,400 and the building much more, but I would rather pay 10 or 20 cents a day for each of my children to go to school in the East End than to pay a like amount for them to obtain an education in the city proper. I understand that a land company who want to give the board several lots will object to the building being market. They tell me that I can start erected in Erie street. That, I believe, from the Diamond and reach the locais a foolish idea. The matter of build- tion of these lots nicely in four minutes; ing school houses is left entirely with that the location is a splendid one; that the board, and everyone living here endorses their selection. The women are land owners before the lots are placed taking an active part in the issue and if on sale. I am further assured that they could vote Saturday the result prices will be very reasonable. During the month of July some extensive improvements will be made at the Globe pottery, but as yet all arrangements have not been completed. The plant will be shut down early next month for a period of about six weeks and during that time the glost kilns will be generally overhauled and the gas pipes will be taken out and coal used instead. Most all the potteries are using gas in the glost kilns, but the going back to coal by the Globe company will no doubt be followed by other plants. All the machinery will be overhanled, and minor improvements will be made in every department.

TO DOUBLE THEIR PLANT.

The Brick Yard Will Erect an Additional

Alexander Johnson, superintendent of the brick yard, stated yesterday the erection of an additional kiln would be commenced not later than next week. Mr. Johnson said further that the new company was not going to give out the proposed improvements like C. E. Allen did, but when the capacity of the plant needed enlargement the company would go ahead and say nothing. The brick for the new kiln is now being made at the Salineville works which Mr. Johnson is interested in, and will be shipped to East End probably the first of next week. With the new machinery working, the plant will have almost double its present capacity.

The Junior Mechanics will meet tomorrow evening in their rooms in Mulberry street and initiate several candidates. The Senior Mechanics will meet in the same rooms tonight and transact routine business.

Epworth Leaguers of the Second M E. church in Pennsylvania avenue held an interesting meeting in the church last evening after the prayermeeting service. The business of the past month was reviewed, and matters concerning the future received some attention.

First of the Season.

Benjamin, the small son of Mr. and Mrs. Daugherty, of Elm street, while playing in the street Wednesday afternoon was sunstruck and his condition today was little improved. The boy is about four years old and usually goes around without a hat, and as he was overheated at the time his condition became much worse. The attending phy- purchase.

sicians have hopes of his recovery, but at present this is in doubt.

A Letter From Camp.

Oliver McKinnon has received a letter from his brother, Cash McKinnon, now with the Nineteenth infantry at Camp Meade. The writer states the regiment expects to leave for Manila within a few days, and that camp life at present is practically the same as that of Company E during its stay in Cuba. McKinnon has a board floor in his tent and is enjoying life as a regular would.

Personal.

Rev. E. C. Simpson, of Toledo, is a guest at the home of Rev. J. R. Greene, in Pennsylvania avenue.

R. Baird returned today from a short stay with friends at East Springfield. Jefferson county.

Fireman Terrence returned from Lisbon last night, where he spent the day attending court.

Martin Elliott, of Ohio avenue, was in Salineville this morning on business.

Back to Work,

Enoch Moon, a jiggerman at the Globe pottery, who has been off duty several days on account of an injury to one of his fingers, has returned to work.

Conrad Goodballet resumed his work at the new Laughlin pottery. He is able to see from the eye that was injured and it proved to be not as serious as was first anticipated.

I MUST BE IN THE CITY,

And My Business Demands a Central

Therefore I shall be on the lookout when the East Liverpool Land company places those Thompson Hill lots on the eral lots will object to the building being market. They tell me that I can start erected in Erie street. That, I believe, from the Diamond and reach the locais a foolish idea. The matter of build- tion of these lots nicely in four minutes; ing school houses is left entirely with that the location is a splendid one; that all improvements will be made by the dorses their selection. The women are land owners before the lots are placed taking an active part in the issue and if on sale. I am further assured that prices will be very reasonable. If these would be materially helped. I hope the statements be true, (and I am assured issue will be carried, for it is more im- by reliable and trustworthy business portant than the work council did when men that they are) then I'll bide my time and erect my home on one of these lots, as I must be centrally located, and will be happy to be saved all the annoyance of grading, paving and other improvements. I'll wait for the sale of the Thompson Hill lots.

WELLSVILLE'S PEOPLE.

Claims 8,000, but the Correct Figures Are About 6,500.

That Wellsville has enjoyed a heathly growth during the past two years evidenced by the enumeration of school youth just completed by O. C. Sinclair, which foots up almost 1,800. This, allowing a ratio of 416, will bring our population to 8,100.—Wellsville Union.

The Union figures somewhat too high. The correct way to estimate on school population is to figure that there are 31/6 people to every child of school age. This would give Wellsville, with 1,743 scholars, a population of 6,100. Figuring 4 people to each male person over 21, the usual way, Wellsville, with 1,799 voters, would have 7,196 of a population. It is therefore safe to figure that the city has about 6,500 people.

RIVER RISING.

The Rains of the Last Few Days Have Caused a Rise.

The wickets at Davis island dam are not yet in position, but they will be within the next 12 hours. At noon yesterday only about 50 wickets needed to be raised. Light rains fell at the headwaters of the Allegheny river yesterday have charge of the work, will dig the and a slight rise is reported there. The marks at the wharf today were 5 feet and river slowly rising.

The Virginia went south last night, and the Ben Hur will be down tonight. The Greenwood and Lorena will be up today. Business at the wharf is very brisk and much freight is being sent south.

In Spots.

Last night at midnight it rained in the city, but only for a short time. Parties who reside in the lower part of town state that while it was raining hard at the Broadway wharf, yet not a drop fell north of Second street.

COMMENCE NEXT MONDAY

Government Officers Stopped the Contractors From Throwing Dirt Into the River. The Chester Residents Anxious to Pay Their Subscription For the New Church.

Contractor McNally has issued an order stating that commencing next Monday evening a force of men will be put to work at six o'clock to work until six o'clock in the morning, making two

When the contract for the construction of the road was secured it was thought that with a single force the road could be completed by September. Since the work has been started this has been found to be impossible and the work will now be rushed both night and day. A large number of gasoline lamps have been secured from a Wheeling firm, and if these had arrived yesterday, as expected, the night shift would have been started last night.

The men to work on the night turn have been hired, and the majority of them have been secured in this city. Practically all the force that will work about the shore opposite Market street are from Liverpool, and many men to work at Kenilworth are from Wellsville. No rails have been laid and none will be for several weeks.

THE M. E. CHAPEL.

Money Has Been Pledged, but No Collections Made.

Many residents of this side of the river, who some time ago placed their name on a subscription paper for the purpose of assisting in erecting a Methodist Episcopal church, are wondering when they will be asked to pay their amounts. When the matter was agitated several months ago considerable money was pledged and a large number of people wanted the church built at once.

The committee appointed by the official board of the First M. E. church to secure ground for the erection of the building did some work in the matter, but so far the trustees of the church have taken no definite action. It is probable the church will not be built until after the mill is in operation and Chester has more inhabitants than it has at present.

GOVERNMENT OFFICERS

Advised Contractor McNally Not to Throw Dirt Over the Bank

When the United States snagboat E. A. Woodruff tied to the Market street wharf Tuesday Captain Christian Welsh and four other men went across the river and notified the person in charge of the middle shovel that from now on they must not throw any dirt over the bank. This order is seriously interfering with the work of the road, but as it is against the law, other dumping grounds must be looked for. The dump cars will be put in operation within a few days and the trouble will soon be a thing of the past.

A Strong Foundation.

The excavating for the foundation of the new mill is progressing rapidly, and Finley Bros., who trenches to a depth of 12 feet. This is made necessary on account of the heavy machinery that will be installed. Although a large force of men are at work, it will be several days before the stonemasons can commence work.

The Shovel Broke.

The steam shovel working on the hillside opposite Market street broke yesterday and it will be several days before it will be put in operation. The break was in the machinery about the bucket.

A New Residence.

The carpenters yesterday completed their work about the new residence owned by Samuel M. Newell, and next week it will be occupied by E. J. Johnson and family.

Mrs. Seevers Improving.

Mrs. Seevers, who is seriously ill at her home in Chester, is somewhat improved over her condition of yesterday. It is now thought she will recover.

Through Driving Piles.

The pile driver which has been working between the Pusey farm and the county road has completed its work at that place, and will now be moved to other parts. It is very likely that piles | For sale in East Liverpool, O., by Jno. I

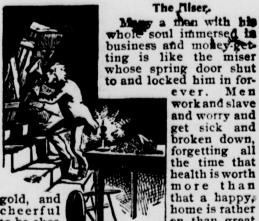

will have to be driven in the hillside opposite Market street. The ground at this place is gradually slipping away on account of the numerous springs, and will be very unsafe for trains to pass over unless some precaution is taken.

That Ball Game.

The Chester baseball team will cross bats with the Young Men's Christian association team next Saturday. An interesting game is promised.

Placed Telephones.

The Independent Telephone company has secured five contracts, on long time, at Hammondsville and Cream City, connecting with Irondale central

A sick man cannot be happy; he cannot accomplish the work he has to do in this world; he loses the very money he is striving for; his ambition defeats itself. Any man who discovers that his strength and energy are giving way has an unfailing means of regaining his physical health and stamina in the simple yet all-potent restorative power of that wonderful "Golden Medical Discovery" originated by Dr. R. V. Pierce, of Buffalo. N. Y., the world-famous specialist in diseases of the nutritive organism.

Among the thousands who have consulted him by mail the case of Mr. Newton B. Blake, of Tiplersville, Tippah Co., Miss., as shown in the following letter indicates the remarkable efficacy of his treatment: "In December 1895 my health began to fail, I tried many different kinds of medicines and the more I took the worse the disease grew. Finally in April when I was busy with the farm work my health got so bad that I could not hold out to work one hour. My breath became short and I was weak and nervous, and could not hold out to work one hour. My breath became short and I was weak and nervous, and oftentimes would spit blood. I was unable to work. I tried one of the doctors in the vicinity but failed to obtain relief. I seemed to grow worse. My father received a book from Dr. Pierce in which I read of a case similar to mine, and decided to write to Dr. Pierce. He recommended me to take his 'Golden Medical Discovery.' After taking six bottles of this remedy I can recommend it as one of the best medicines to build up the system. I am now enjoying to build up the system. I am now enjoying good health."

Torpid liver and constipation are surely and speedily cured by Dr. Pierce's Pleasant Pellets. They never gripe. They regulate, tone up and invigorate the liver, stomach and bowels. No substitute urged by mercenary dealers is as good.

BERG IN WHEELING.

The Promoter of the New Trust Telling the Wheeling Manufacturers About It.

Carl D. Bradley, the representative of Berg & Co., of Chicago, who has been in the city several days talking to the manufacturers with reference to forming a combination, is now in Wheeling. Mr. Bradley left for that place yesterday, and it was his intention to remain there for several days. It is not at all probable the combination will go through, although the manufacturers are willing to do anything to cause the price of ware to advance. Two prominent manufacturers were seen this morning, and one of them in part said:

"There should be something done to protect the manufacturers. Wages are going up all over the country in the potteries, and the price of ware is going down. I do not think any person in the city is in favor of a trust, but should the price cutting be stopped there would be no need of a combination."

JURY MEDDLING CHARGED.

House Committee Attorney Said Grand Jurymen Had Been Offered Bribes

HARRISBURG, June 8 .- Charles H. Bergner of this city, private counsel for the house prosecuting committee in the executive bribery cases claimed to have information that certain members of the Dauphin county grand jury had been offered \$100 a piece to vote to ignore the bills of indictment against the defendants. Mr. Bergner said that if the attempts were not stopped he would have the parties arrest d for embracery before the bribery cases were submitted to the jury

The attorneys for the defendants said they knew nothing about the alleged attempt to influence the jury.

Militia to Bring In Mountaineers.

MANCHESTER, Ky., June 8.—Colonel Williams' troops began preparations for bringing in the Bakers, who are to be defendants and witnesses in the trial here. They are reported to be camped in two localities not far away, and to be well armed. There still remains apprehension that bloodshed will result, as it is said the Bakers can easily ambush the troops and have them at their mercy.

May Crush Indiana Trusts.

INDIANAPOLIS, June 8.—The Indiana supreme court decision against the little trust formed by the gas companies of Portland, this state, is one of the most farreaching in its anti-trust nature of any yet handed down by the Indiana court, and Attorney General Taylor declares that it makes possible action that will crush trust combinations in this state for good.

Soldiers Got Fiae Beef.

Washington, June 8.—The war department received through the courtesy of the New York Central cable office an article published in the Manila Freedom of April 22, regarding the preservation of beef. It said that Australian beef, over eight months in cold storage, had been turned over to the soldiers and it was in splendid condition. The beef served to the soldiers was highly praised.

Trust Conference Postponed.

CHICAGO, June 8.—In response to a demand for more time, made by many public officials and organizations invited to participate in the conference on combinations and trusts in this city, June 26-29, the general committee having charge of the arrangements has decided to change the time of the meeting to Sept. 13-16 inclusive.

THE Democratic factions are showing signs of "getting together." The muss will no doubt be as riotous as usual.

WITHDRAWAL SEASON.

From now on the Democratic politicians of the state will be busily engaged dodging the questionable honor of their party's nomination for governor. All any Democrat who desires to get his "name in de pape" will have to do will be to announce that he has withdrawn from the race. Congressman Lentz, of Columbus, is the first to do so. Lentz, however, has better reason than most for declining to run. He is the law partner of the Republican candidate in the firm of Nash & Lentz. The Hon. Jim Campbell and John R. McLean having already declined, the smaller fry can now get in the push and follow suit.

WORKED A NEW GAME

The Police Officers Got Next and Are After the Man

WHO WANTED EXPENSE MONEY

Mrs. Isaac Riley, of East End, and Mrs Louis Barth Were Willing to Sell Property, and as a Result the Agent Received \$23 to be Used as Expenses.

Yesterday afternoon the police were notified by Mrs. Isaac Riley, of River avenue, East End, that she had lost \$8 through a man who gave his name as C. H. Halladen. Mrs. Louis Barth, of Oak street lost \$15 through the same way. Although the authorities were given a good description of the man, he is still roaming about some other town. but not Liverpool.

Halladen came to the city several days ago, but from where no one seems to know. Yesterday morning he went to the home of Mrs. Riley, who is the agent of some property owned by John K. Crooke, of Croyden, Pa. The individual told Mrs. Riley he represented an insurance company which was buying property in this vicinity for investment purposes. Mrs Riley was told also that he had seen Mr. Crooke and that the property could be purchased for \$1,800 cash, and for Mrs. Riley to give him \$15 of Mr. Crooke's money to be used for expenses that would be connected with the transfer. The woman stated that she only had \$8, and he took the amount stating he would look to Mr. Crooke for the balance. He went away and that is the last that has been seen of him.

Mrs. Riley notified Office White of the transaction and at 5:27 last evening White received a telegram from Mr. Crooke stating that he had never seen the insurance representative and he was evidently a fraud.

At 3 o'clock yesterday afternoon the man went to the home of Mrs. Louis Barth on Oak street and told the same story. He said he had seen Mr. Barth at the potterv and he was willing to sell the property provided his wife was. The price, \$2,800. was to be paid in cash. The asual \$15 expense was given the man and he, went away, but has not returned. The matter was brought to light when Mr. Barth returned home The public can depend upon this and the police were notified.

In each instance a receipt for the amount was given by Halladen.

HAMLET BOURNE

Died Yesterday at the Residence of His

Hamlet Bourne died yesterday at the home of his brother, Samuel Bourne.

Deceased was aged 47 years and was born in England. He was a modeler by trade, and was well known here. Yesterday morning when he was called for breakfast he failed to answer, upon investigation it was found that he was dead. The funeral will take place at 2 o'clock tomorrow. Interment at Riverview cemetery.

Rr. Baum's Tribute. James Baum, of Wellsville, speaking

of Bourne's death, said: "By the death of Hamlet Bourne (who formerly worked for me) the potting fraternity has lost one of its brightest members. He was a modeler of no mean ability and had shown by his work in this country that he had good claim to rank as one of the brightest and best of workmen. Descended from a family of potters well known in England, he has enriched this country by his work. It was to be regretted that Mr. Bourne had faults which marred his career, but his faults died with him, and his work will show that he was well deserving of the esteem of the potting public and their rating of his ability. Mr. Bourne came from Staffordshire when a young man after studying at South Kensington, London. When he reached this country he modeled a bust of Horace Greeley, which was well spoken of and gave him great fame. It is to be hoped that the example of Hamlet Bourne as a successful modeler will be emulated by some of our American youth, who may be able to produce as good work as he has

Wants to Locate In East Liverpool, Provided the Induce. ments Are Offered.

Secretary Travis this morning received a letter from the manager of an established factory not a great many miles from here asking what induce. ments the city would offer for them to move their factory to this place. The plant if built would employ from 50 to 100 hands and would greatly benefit the city. The secretary will turn the com. munication over to J. E. McDonald and he will correspond with the concern and see what they want.

The nature of the factory and where it is now located is not given to the pub. lic for the reason that the party writing the letter requested that the matter be kept out of the newspapers.

WORKED A NEW GAME I

The Police Officers Got Next and Are After the Man

WHO WANTED EXPENSE MONEY

Mrs. Isaac Riley, of East End, and Mrs. Louis Barth Were Willing to Sell Property, and as a Result the Agent Received \$23 to be Used as Expenses.

Yesterday afternoon the police were notified by Mrs. Isaac Riley, of River avenue. East End, that she had lost \$8 through a man who gave his name as C. H. Halladen. Mrs. Louis Barth, of Oak street lost \$15 through 'he same way. Although the authorities were given a good description of the man, he is still roaming about some other town. but not Liverpool.

Halladen came to the city several days ago, but from where no one seems to know. Yesterday morning he went to the home of Mrs. Riley, who is the agent of some property owned by John K. Crooke, of Croyden, Pa. The individual told Mrs. Riley he represented an insurance company which was buying property in this vicinity for investment purposes. Mrs Riley was told also that he had seen Mr. Crooke and that the property could be purchased for \$1,800 cash, and for Mrs. Riley to give him \$15 of Mr. Crooke's money to be used for expenses that would be connected with the transfer. The woman stated that she only had \$8, and he took the amount stating he would look to Mr. Crooke for the balance. He went away and that is the last that has been seen of him.

Mrs. Riley notified Office White of the transaction and at 5:27 last evening White received a telegram from Mr. Crooke stating that he had never seen the insurance representative and he was evidently a fraud.

At 3 o'clock yesterday afternoon the man went to the home of Mrs. Louis these lots. Barth on Oak street and told the same story. He said he had seen Mr. Barth at the potterv and he was willing to sell the property provided his wife was. The price, \$2,800. was to be paid in cash. The asual \$15 expense was given the man and he, went away, but has not returned. The matter was brought to light when Mr. Barth returned home and the police were notified.

In each instance a receipt for the amount was given by Halladen.

SEWER PIPE TRUST.

Dos Passos Says It Is a Go, but Such Matters Require Some Time.

John R. Dos Passos in an interview with a New York Commercial reporter yesterday denied the report sent out from Steubenville, that the prospects of the formation of the Federal sewer pipe were poor. He said the first call on subscription had been made and that the response was most favorable.

Frank Eberhardt, of the Pittsburg Fire Clay company, one of the constituent companies, said to a Commercial reporter that the prospects for an immediate transfer of the properties and organization of the Federal Sewer Pipe company were very good. "None of the money has been paid over as yet," he said, "but the belief among the manufacturers is that the deal will be closed shortly. There is no reason, in my opinion, for the circulation of such a report. Steubenville is in the center of the sewer pipe industry, and I know of several of the largest manufacturers there who are heartily supporting the movement."

A SALTY DOSE.

A Steubenville Man Pointed a Revolver and Was Fined \$29.60.

Alonzo L. Snyder, came here from Stenbenville recently, but yesterday he got drunk and fell into the hands of the law. Last evening he went out East Market street and purchased a tomato. When near the Horn switch he asked several boys for a handkerchief and was accommodated. He put it in his pocket and started off, but against the Wishes of the owner. When asked to return the handkerchief he pulled a revolver from his pocket and pointed it at the face of Lester McBane. Officer McCullough put him in jail and this morning Mayor Bough fined him \$29.60 on a charge of pointing firearms filed by McBane.

This was the only arrest made during the night, and as no complaints were made yesterday business is very quiet.

SEWER PIPE TRUST.

Dos Passos Says It Is a Go, but **Such Matters Require** Some Time.

John R. Dos Passos in an interview with a New York Commercial reporter yesterday denied the report sent out from Steubenville, that the prospects of the formation of the Federal sewer pipe were poor. He said the first call on subscription had been made and that the response was most favorable.

Frank Eberhardt, of the Pittsburg Fire Clay company, one of the constituent companies, said to a Commercial reporter that the prospects for an immediate transfer of the properties and organization of the Federal Sewer Pipe company were very good. "None of the money has been paid over as yet," he said, "but the belief among the manufacturers is that the deal will be closed shortly. There is no reason, in my opinion, for the circulation of such a report. Steubenville is in the center of the sewer pipe industry, and I know of several of the largest manufacturers there who are heartily supporting the movement."

A SALTY DOSE.

A Steubenville Man Pointed a Revolver and Was Fined \$29.60.

Alonzo L. Snyder, came here from Steubenville recently, but yesterday he got drunk and fell into the hands of the law. Last evening he went out East Market street and purchased a tomato. When near the Horn switch he asked several boys for a handkerchief and was accommodated. He put it in his pocket and started off, but against the wishes of the owner. When asked to return the handkerchief he pulled a revolver from his pocket and pointed it at the face of Lester McBane. Officer McCullough put him in jail and this morning Mayor Bough fined him \$29.60 lightful resort. The room will be ready on a charge of pointing firearms filed for use the first of next week.

Tendency Is Toward Abolition of Depressing Funerals.

NOVEL CEMETERY DEDICATED

Chicago Undertaking Firm Builds Chapel Equipped With Every Convenience For Conducting Funerals. Possibility That Bicycles Will Supplant Carriages.

How to bury the dead without the depressing scenes surrounding such services is a problem which the present generation is rapidly solving. In the east there was dedicated recently a cemetery the object of which is to remove so far as is possible the gloominess of burials. This burying ground is laid out with fountains and attractive walks. There are no dirt covered mounds to cast a chill over those who visit the place, and the services attending the burial of the dead there are of a nature intended to cheer up humanity rather than depress its feelings.

Directly in the wake of this new departure in the east an enterprising undertaking firm of Chicago announces that it soon will place before the public an establishment where funeral services may be conducted as conveniently as from the best appointed home. In connection with its undertaking establishment it has had built a chapel, well furnished, of good size and equipped with all the facilities necessary in performing the last rites over those who have passed away. And all this reform, it is said, is not done for any pecuniary profit to those who have brought about the change, but because the public has demanded such action. People, they say, are beginning to realize that the passing of souls into eternity, while always an occasion for deep sorrow, as a rule is made too depressing by the gloominess which attends the services that are held, and the tendency now, they say, is to have the services made more ethereal and beautiful.

A cozy, well furnished chapel, fully equipped with every convenience for conducting a funeral, with orchestra chairs, pulpit, organ, choirroom and pedestals for the coffin, all permanently placed, is what the Chicago firm has had built in conjunction with its new undertaking establishment. Necessity, they say, has compelled the building of a place where funeral services may be held. In a large city fatal illnesses and accidents are not uncommon among visitors and travelers, and when relatives and friends are hurriedly called from faroff places, as is ofttimes the case, the arrangements for the funeral services must necessarily be hastily made.

The unsatisfactory conditions and the inconveniences attending occasions of this kind in many instances compel the relatives and friends of the deceased to hold the funeral from the undertaking establishment, and from this class of deaths there has come a crying need for some comfortable, suitable and appropriate place for holding such funerals. Then there are deaths which occur in hotels or in boarding houses and in hospitals when the relatives of the dead person are unable to find a place for the funeral services where privacy may be had and where the gloomy associations of the undertaking establishments are not present. In addition to this, societies, lodges and fraternal orders all have urged the building of such an establishment where services over a brother member may be conducted. The greatest demand, however, has come from residents of apartment houses.

The most unique as well as timely reform which promises to become a feature in the burial of the dead is the doing away with carriages and substituting bicycles as means of conveyance for the dead as well as for the attendants at a funeral. Last year a notice was sent out by an undertaker in Chicago which advertised funerals conducted by wheel to all the leading cemeteries. It was asserted by him that this was the cheapest and best method. For the first time in the history of the country such a funeral was held shortly after the publication of the notice.

"It seems most proper and fitting," said one undertaker when asked regarding such events, "that the remains of those who have been enthusiastic wheelmen during their lives should be con-"ucted to their last resting places by the aid of a bicycle. The cycle hearse which won'd be used as a substitute for the regular venicle of this kind could be easily built. It could be propelled by six, eight or even more stalwart wheelmen. There could be a few carriages for the mourners and the aged or those who could not master a wheel themselves, and the friends of the decedent could follow on their own wheels.'

The step which has been taken in the east in the reform of burials, which is expected to meet with the hearty approval of the public at large, is the introduction of cheerful music and more brightness generally in the burial services, as well as the substitution for the ordinary burying ground of a cemetery, which tends to take from the scene the eustomary chill and gloom. Somerton Hills cemetery, outside of the city of Somerton, Pa., is the first example of Probably my father."-Exchange.

this reform system. The dedication of this cemetery took place recently, and the exercises were witnessed by many.

The "reformers" have had this new cemetery laid out with fountains and public promenades among the graves. The latter, when ready to receive a body, are to be lined with trailing evergreens and surrounded by growing flowers. The unsightly rows of dirt covered mounds will not be known in this burying ground, and everything will be done to make the services attending the burying of the dead as cheerful as is possible. - Chicago Post

The Answer Was Easy.

When King Oscar was at Paris some cears ago, he was about seeing the sights incognito. Among other places he dropped in at the official exposition of Sevres porcelain. Here the product of every year was arranged chronologically and with great care. Of some kinds there were full sets, but of blue celeste there were but three pieces, and the custodian informed the king that it was impossible to obtain more and that they were of immense value.

"What!" said the king. "Have you only these three plates of blue celeste?"

"That is all." "Well, then," said his majesty, "I have many more than you."

"You!" said the custodian in amazement. "Who are you?"

"The king of Sweden!" "May I inquire, your majesty, how many pieces of this exquisite porcelain

you have?' "Hear thou, Nils," said the king, turning to his first marshal, Count Rosen, who accompanied him. "How

many have we?" "Two hundred and fourteen pieces, your majesty.

"Heavens!" cried the astonished custodian. "How can it be possible that you have preserved them all this time?" "Oh, that's very easily accounted

for!" said the king. "You see, in Sweden we don't have any revolutions!"-Philadelphia Post.

PASSING OF THE NIGHTCAP.

Our Catarrhal Troubles Are Largely Due to Its Abandonment.

"If the American people would only put on nightcaps when they go to bed, there would not be near so many cases of catarrhal trouble as there are now,' said a Chicago physician. He continued: "It is well known that as a nation the percentage of catarrhal complaints is greater among us than in any other nation in the world and that there are more cases among men than among women. The reason for this disproportion is the absence of nightcaps and the habit of smoking in the open air. Women, if they smoke at all, do not do so in the open air, and if they do not wear nightcaps they are in a measure protected by their heavier heads of hair. Men, on the contrary, habitually wear their hair close cut, are careless about the temperature of the rooms in which they sleep, and while all the rest of the body is carefully protected the head may be exposed all night to a zero temperature and that at the very time when nature is at its lowest ebb and can do the least to protect itself. If we would begin by nightcapping all our children and induce them to keep up the habit in later years, within a generation or two catarrh would be a comparatively rare disease in the United

"Englishmen and the people of the continent know an American by two things-his liberality with money and his habit of hawking and spitting. They cannot understand the latter, as catarrh is an unusual complaint abroad. But nightcaps are not. They are a recognized part of the night toilet throughout Europe, and to this is due the freedom of the people there from a distress-

ing complaint. "Who ever sees a nightcap in this country? But in England it is so much a matter of course that its great writer, Dickens, frequently mentioned it in order to give the proper touch of realism to his creations." - Chicago Inter Ocean.

A Peculiar Plant.

There is a strange wild plant in Guadeloupe called the "life plant." If a leaf be broken off and pinned by the stem to the wall of a warm room, each of the angles between the curves of the leaf margin soon throws out a number of very white tentacles, or roots, and soon a tiny new plant begins to sprout, and in the course of a week or two attains a height of two or three inches. When the old leaf shrivels, the new plant is cut off and planted. When carefully cultivated, the life plant pro duces curious red and yellow blossoms. While the plant is native only in a warm country, there is no doubt that it could be successfully grown in any greenhouse, and as a plant freak it certainly is as interesting as the everlasting plant of Mexico. - Cincinnati Enquirer.

Our Catarrhal Troubles Are Largely Due to Its Abandonment. "If the American people would only

of catarrhal trouble as there are now, said a Chicago physician. He continued: "It is well known that as a nation the percentage of catarrhal complaints is greater among us than in any other nation in the world and that there are more cases among men than among women. The reason for this disproportion is the absence of nightcaps and the habit of smoking in the open air. Women, if they smoke at all, do not do so in the open air, and if they do not wear nightcaps they are in a measure protected by their heavier heads of hair. Men, on the contrary, habitually wear their hair close cut, are careless about the temperature of the rooms in which they sleep, and while all the rest of the body is carefully protected the head may be exposed all night to a zero temperature and that at the very time when nature is at its lowest ebb and can do the least to protect itself. If we would begin by nightcapping all our children and induce them to keep up the habit in later years, within a generation or two catarrh would be a comparatively rare disease in the United

"Englishmen and the people of the continent know an American by two things-his liberality with money and his habit of hawking and spitting. They cannot understand the latter, as catarrh is an unusual complaint abroad. But nightcaps are not. They are a recognized part of the night toilet throughout Europe, and to this is due the freedom of the people there from a distressing complaint.

"Who ever sees a nightcap in this country? But in England it is so much a matter of course that its great writer. Dickens, frequently mentioned it in order to give the proper touch of realism to his creations." — Chicago Inter Ocean.

Tendency Is Toward Abolition of Depressing Funerals.

NOVEL CEMETERY DEDICATED.

Chicago Undertaking Firm Builds Chapel Equipped With Every Convenience For Conducting Funerals. Possibility That Bicycles Will Supplant Carriages.

How to bury the dead without the depressing scenes surrounding such services is a problem which the present generation is rapidly solving. In the east there was dedicated recently a cemetery the object of which is to remove so far as is possible the gloominess of burials. This burying ground is laid out with fountains and attractive walks. There are no dirt covered impossible to obtain more and that they mounds to cast a chill over those who visit the place, and the services attending the burial of the dead there are of a nature intended to cheer up humanity rather than depress its feelings.

Directly in the wake of this new departure in the east an enterprising undertaking firm of Chicago announces that it soon will place before the public an establishment where funeral services may be conducted as conveniently as from the best appointed home. In connection with its undertaking establish ment it has had built a chapel, well furnished, of good size and equipped with all the facilities necessary in performing the last rites over those who have passed away. And all this reform, it is said, is not done for any pecuniary profit to those who have brought about the change, but because the public has demanded such action. People, they say, are beginning to realize that the passing of souls into eternity, while always an occasion for deep sorrow, as a rule is made too depressing by the gloominess which attends the services that are held, and the tendency now, they say, is to have the services made more ethereal and beautiful.

A cozy, well furnished chapel, fully equipped with every convenience for conducting a funeral, with orchestra chairs, pulpit, organ, choirroom and pedestals for the coffin, all permanently placed, is what the Chicago firm has had built in conjunction with its new undertaking establishment. Necessity, they say, has compelled the building of a place where funeral services may be held. In a large city fatal illnesses and accidents are not uncommon among visitors and travelers, and when relatives and friends are hurriedly called from faroff places, as is ofttimes the case, the arrangements for the funeral | bile dictu-powdered alum. services must necessarily be hastily

The unsatisfactory conditions and the inconveniences attending occasions of this kind in many instances compel the relatives and friends of the deceased to hold the funeral from the undertaking establishment, and from this class of deaths there has come a crying need for some comfortable, suitable and appropriate place for holding such funerals. Then there are deaths which occur in hotels or in boarding houses and in hospitals when the relatives of the dead person are unable to find a place for the funeral services where privacy may be had and where the gloomy associations of the undertaking establishments are not present. In addition to this, societies, lodges and fraternal orders all have urged the building of such an establishment where services over a brother member may be conducted. The greatest demand, however, has come from residents of apartment houses.

The most unique as well as timely reform which promises to become a feature in the burial of the dead is the doing away with carriages and substituting bicycles as means of conveyance for the dead as well as for the attendants at a funeral. Last year a notice was sent out by an undertaker in Chicago which advertised funerals conducted by wheel to all the leading cemeteries. It was asserted by him that this was the cheapest and best method. For the first time in the history of the country such a funeral was held shortly after the publication of the notice.

"It seems most proper and fitting," said one undertaker when asked regarding such events, "that the remains of those who have been enthusiastic wheelmen during their lives should be conducted to their last resting places by the aid of a bicycle. The cycle hearse which won d be used as a substitute for the regular venicle of this kind could be easily built. It could be propelled by six, eight or even more stalwart wheelmen. There could be a few carriages for the mourners and the aged or those who could not master a wheel themselves, and the friends of the decedent could follow on their own wheels.

The step which has been taken in the east in the reform of burials, which is expected to meet with the hearty approval of the public at large, is the introduction of cheerful music and more brightness generally in the burial services, as well as the substitution for the ordinary burying ground of a cemetery, which tends to take from the scene the customary chill and gloom. Somerton Hills cemetery, outside of the city of Somerton, Pa., is the first example of

this reform system. The dedication of this cemetery took place recently, and the exercises were witnessed by many.

The "reformers" have had this new cemetery laid out with fountains and public promenades among the graves. The latter, when ready to receive a body, are to be lined with trailing evergreens and surrounded by growing flowers. The unsightly rows of dirt covered mounds will not be known in this burying ground, and everything will be done to make the services attending the burying of the dead as cheerful as is possible. - Chicago Post

The Answer Was Easy.

When King Oscar was at Paris some years ago, he was about seeing the sights incognito. Among other places he dropped in at the official exposition of Sevres porcelain. Here the product of every year was arranged chronologically and with great care. Of some kinds there were full sets, but of blue celeste there were but three pieces, and the custodian informed the king that it was were of immense value.

"What!" said the king. "Have you only these three plates of blue celeste?" "That is all."

"Well, then," said his majesty, "I have many more than you."

"You!" said the custodian in amaze-

ment. "Who are you?" "The king of Sweden!"

"May I inquire, your majesty, how many pieces of this exquisite porcelain secured at reasonable rates. There is you have?' "Hear thou, Nils," said the king,

turning to his first marshal, Count Rosen, who accompanied him. "How many have we?"

"Two hundred and fourteen pieces, your majesty.'

"Heavens!" cried the astonished custodian. "How can it be possible that you have preserved them all this time?"

"Oh, that's very easily accounted for!" said the king. "You see, in Sweden we don't have any revolutions!"-Philadelphia Post.

OTIS FIXES THE BLAME.

Filipino Leaders Responsible For the War.

EFFORTS TO MAINTAIN PEACE.

American Commander Did Everything Possible to Avoid a Conflict. Correspondence With Aguinaldo Before the Outbreak of Hostilities. Our Aims Misunderstood.

The secretary of war recently made public the report of General Otis transmitting the reports of his subordinate officers on the operations around Manila up to April 6. General Otis begins with this statement:

These military operations are fairly well presented in the reports, and I have little to add thereto, but desire particularly to call attention to the rise and development of conditions and circumstances which resulted finally in war. This I deem to be essential in order to correct the somewhat prevailing impression that the government of the United States is responsible through deceit for wrongful action for the present existing hostilities.

To this end he gives a short summary of the Filipino insurrection against Spain, laying stress on the fact that a small band of the natives of Luzon, leaders of the rebellion of 1896, were induced for a monetary consideration to leave the island. These men returned to the neighborhood of Manila after the destruction of the Spanish fleet there. being, as General Otis says, "encouraged without authority to attempt the organization of what they were pleased to denominate an independent government for the Filipino people.

General Otis tells of the landing of Aguinaldo from an American vessel and of the insurgents taking advantage of the active hostilities between the United States and Spain to capture southern points and increase their strength. Independence, General Otis says, was proclaimed by Aguinaldo in August; as early as June he had warned the United States authorities against the landing of its military forces on Philippine soil without first obtaining his consent, because, as he expressed it, "the Filipino people might consider the occupation of Philippine territory by North American troops a violation of their rights. ' General Qtis adds:

When the United States forces landed from their transports near and to the south of Manila for the purpose of attacking the city, the fiction that they were acting as allies of the insurgents and in furtherance of Philippine independence appears to have been conveyed by insur-

He describes Aguinaldo's efforts to strengthen his lines in preparation for nostilities with the United States during this time and explains the growth of the insurgent movement for independence by saying that in the absence of Spanish authority many able and conservative Filipinos gave adherence to this seemingly de facto government. Many of them withdrew their adherence when the radical element declared its hostility to the United States.

Describing briefly the tension that existed at the time, General Otis includes in explanation of his course some highly important correspondence that passed between himself and Aguinaldo. Early in January, when he was asked by conservative Filipinos to appoint a committee of army officers to meet an insurgent committee and effect a compromise by which peace might be maintained, General Otis refused to recognize an insurgent government, but was willing to negotiate with Aguinaldo or a commission appointed by him. Aguinaldo's response and General Otis' reply are given in the following extracts from the report

Nevertheless, for the sake of peace, I have considered it advisable to name as "commanding general" a commission composed of the following gentlemen-Mr. Florentino Flores, Ambrosio Flores and Manuel Arguieles-that they may together represent me and arrive at an accord with those whom you will name, with the object of using such methods as will normalize the actual situation created by the attitude of your government and troops.

Headquarters Department of the Pacific and Eighth Army Corps: Manila, Jan. 9, 1899.

General Emilio Aguinaldo, Commanding Revolutionary Forces, Malolos: General—I have the honor to acknowledge the receipt of your communication of today and am much pleased at the action you have taken. I greatly regret that you have not a clear understanding of my position and motives and trust that my explanation, assisted by the conference I have invited, will make them clear

I cannot recognize any national or civil power not already formally recognized by my government, unless especially authorized to do so by the instructions of the executive of the United States. For this reason I was unable to receive officially the representatives of the revolutionary government and endeavored to make that inability clear to the distinguished gentlemen with whom I had the pleasure to bear witness that my course throughout here has been consistent, and it has pained me that I have not been able to receive and answer communications of the abinet officers of the government at Malolos, fearing that I might be erroneously charged with lack of courtesy.

Major General United States Volunteers,

General Otis says the negotiations between the two commissions reached no conclusions, as the insurgent members could not submit any formulated statement which they were able to maintain. They presented, as the desire of the insurgents, absolute independence under the protection of the United States, but the nature and scope of the failure. In the latter part of January the insurgents became aggressive, interfering with the American troops, and finally General Otis addressed another letter to Aguinaldo, calling attention to the arrest by Filipinos of some American soldiers and a newspaper correspondent, and requesting an explanation. General Otis' letter added

I am doing everything possible to preserve the peace and avoid all friction until the Philippine people can be made fully acquainted with the sentiments and intentions of the American government, when I am confident that they will appreciate the endeavors of the United States and will again look upon that country as their friend and protector. I also fully believe that the present unrest is the result of machinations of evil disposed per-

Aguinaldo replied that the men were arrested inside of his lines for breach of a decree forbidding foreigners to approach the insurgent lines. In a vein of sarcasm he added

I must state that in consideration of the friendship of the Philippine people for the Americans the said soldiers have not been imprisoned, but detained in accordance with the spirit of the decree of Oct. 20 last. They have been lodged in the Gobierno militar and have been issued the daily rations of our officers. If they have been uncomfortable, it is due to the excessive sobriety of our race and of our soldiers, who are accustomed to eat but little and to sleep on the hard ground. With these explanations I believe, general, you will understand the motive of the detention of your soldiers today liberated and who have been treated with all due consideration. I therefore hope that your determination may be another motive on which to base our friendly relations with the great American republic, and in consideration of this I also decree the liberty of the correspondent referred

General Otis explains that the Americans were not outside his lines and says he quotes the correspondence merely to show the efforts of the American authorities to maintain peace. He next tells how the American soldiers were openly insulted and how the insurgents had continually labored to strengthen their lines, threatening to drive the Americans out of the island, and how finally, on the night of Feb. 4, the demonstration was made, as told by General MacArthur, which resulted in the killing of a Filipino by an American sentry and the firing on the Americans by the insurgent troops. General Otis closes his report as follows:

The insurgent army had thus succeeded in drawing the fire of a small outpost, which they had evidently labored with all their ingenuity to accomplish in order to justify in some way their premeditated attack. It is not believed that the chief insurgent leaders wished to open hostilities at this time, as they were not completely prepared to assume the initiative. They desired two or three days more to perfect their arrangements, but the zeal of their army brought on the crisis which anticipated their action. Filipino Leaders Responsible For the War.

EFFORTS TO MAINTAIN PEACE.

American Commander Did Everything Possible to Avoid a Conflict. Correspondence With Aguinaldo Before the Outbreak of Hostilities. Our Aims Misunderstood.

The secretary of war recently made public the report of General Otis transmitting the reports of his subordinate officers on the operations around Manila up to April 6. General Otis begins with this statement:

These military operations are fairly well presented in the reports, and I have little to add thereto, but desire particularly to call attention to the rise and development of conditions and circumstances which resulted finally in war. This I deem to be essential in order to correct the somewhat prevailing impression that the government of the United States is responsible through deceit for wrongful action for the present existing hostilities.

To this end he gives a short summary of the Filipino insurrection against Spain, laying stress on the fact that a small band of the natives of Luzon, leaders of the rebellion of 1896, were induced for a monetary consideration to leave the island. These men returned to the neighborhood of Manila after the destruction of the Spanish fleet there. being, as General Otis says, "encouraged without authority to attempt the organization of what they were pleased to denominate an independent government for the Filipino people.

General Otis tells of the landing of Aguinaldo from an American vessel and of the insurgents taking advantage of the active hostilities between the United States and Spain to capture southern points and increase their strength. Independence, General Otis says, was proclaimed by Aguinaldo in August; as early as June he had warned the United States authorities against the landing of its military forces on Philippine soil without first obtaining his consent, because, as he expressed it, "the Filipino people might consider the occupation of Philippine territory by North American troops a violation of their rights." General Qtis adds

When the United States forces landed from their transports near and to the south of Manila for the purpose of attacking the city, the nction that they were acting as allies of the insurgents and in furtherance of Philippine independence appears to have been conveyed by insurgent leaders.

He describes Aguinaldo's efforts to strengthen his lines in preparation for hostilities with the United States during this time and explains the growth of the insurgent movement for independence by saying that in the absence of Spanish authority many able and conservative Filipinos gave adherence to this seemingly de facto government. Many of them withdrew their adherence when the radical element declared its hostility to the United States.

Describing briefly the tension that existed at the time, General Otis insome highly important correspondence tentions of the American government that passed between himself and Aguinaldo. Early in January, when he was asked by conservative Filipinos to appoint a committee of army officers to meet an insurgent committee and effect a compromise by which peace might be maintained, General Otis refused to recognize an insurgent government, but was willing to negotiate with Aguinaldo or a commission appointed by him. Aguinaldo's response and General Otis' reply are given in the following extracts from the report

Elephants have the bitterest enmity to camels. When the camel scents the elephant, it stops still, trembles in all its limbs and utters an interrupted cry of terror and affright. No persuasion, no blows, can induce it to rise. It moves its head backward and forward, and its whole frame is shaken with mortal anguish. The elephant, on the contrary, as soon as he perceives the camel, elevates his trunk, stamps with his feet, and with his trunk thrown backward, snorting with a noise like the sound of a trumpet, he rushes toward the camel, which with its neck outstretched and utterly defenseless awaits with the most patient resignation the approach of its enemy. The elephant, with its enormous shapeless limbs, tramples on the unfortunate animal in such a manner that in a few minutes it is scattered around in small fragments.

OTIS FIXES THE BLAME.

Filipino Leaders Responsible For the War.

EFFORTS TO MAINTAIN PEACE.

American Commander Did Everything Possible to Avoid a Conflict. Correspondence With Aguinaldo Before the Outbreak of Hostilities. Our Aims Misunderstood.

The secretary of war recently made public the report of General Otis transmitting the reports of his subordinate officers on the operations around Manila up to April 6. General Otis begins with this statement:

These military operations are fairly well presented in the reports, and I have little to add thereto, but desire particularly to call attention to the rise and development of conditions and circumstances which resulted finally in war. This I deem to be essential in order to correct the somewhat prevailing impression that the government of the United States is responsible through deceit for wrongful action for the present existing hostilities.

To this end he gives a short summary of the Filipino insurrection against Spain, laying stress on the fact that a small band of the natives of Luzon, leaders of the rebellion of 1896, were induced for a monetary consideration to leave the island. These men returned to the neighborhood of Manila after the destruction of the Spanish fleet there, being, as General Otis says, "encouraged without authority to attempt the organization of what they were pleased to denominate an independent government for the Filipino people.

General Otis tells of the landing of Aguinaldo from an American vessel and of the insurgents taking advantage of the active hostilities between the United States and Spain to capture southern points and increase their strength. Independence, General Otis says, was proclaimed by Aguinaldo in August; as early as June he had warned the United States authorities against the landing of its military forces on Philippine soil without first obtaining his consent, because, as he expressed it, "the Filipino people might consider the occupation of Philippine territory by North American troops a violation of their rights." General Qtis adds

When the United States forces landed from their transports near and to the south of Manila for the purpose of attacking the city, the fiction that they were acting as allies of the insurgents and in furtherance of Philippine independence appears to have been conveyed by insurgent leaders

He describes Aguinaldo's efforts to strengthen his lines in preparation for hostilities with the United States during this time and explains the growth of the insurgent movement for independence by saying that in the absence of Spanish authority many able and and finally General Otis addressed anconservative Filipinos gave adherence to this seemingly de facto government. Many of them withdrew their adherence when the radical element declared its hostility to the United States.

Describing briefly the tension that existed at the time, General Otis includes in explanation of his course some highly important correspondence that passed between himself and Aguinaldo. Early in January, when he was asked by conservative Filipinos to appoint a committee of army officers to meet an insurgent committee and effect a compromise by which peace might be maintained, General Otis refused to recognize an insurgent government, but was willing to negotiate with Aguinaldo or a commission appointed by him. Aguinaldo's response and General Otis' reply are given in the following extracts from the report

Major General E. S. Otis, General of the American Forces of Occupation in Ma-

General-I have been informed after the interview between the commissioners of my government and Mr. Carman that there will be no inconvenience on your part in naming as commanding general representatives that will confer with those whom I will name for the same object.

Although it not being explained to me the reason why you could not treat with the commissioners of my government, I have the faculty of doing the same with those of the commanding general "who cannot be recognized." Nevertheless, for the sake of peace, I have considered it advisable to name as "commanding genera commission composed of the following gentlemen-Mr. Florentino Flores, Ambrosio Flores and Manuel Arguieles-that they may together represent me and arat an accord with those whom you will name, with the object of using such methods as will normalize the actual situation created by the attitude of your

government and troops. If you will deign to attend to said commissioners and through these methods come to some understanding, "if only temporary," that will insure the peace and harmony among ourselves, the Philippine public would reach a grateful

I am yours, general, with the highest consideration, your most respectful serv-

EMILIO AGUINALDO. To this letter General Otis replied as

Headquarters Department of the Pacific

and Eighth Army Corps: Manila, Jan. 9, 1899. General Emilio Aguinaldo, Commanding Revolutionary Forces, Malolos:

General-I have the honor to acknowledge the receipt of your communication of today and am much pleased at the action you have taken. I greatly regret that you have not a clear understanding of my position and motives and trust that my explanation, assisted by the conference I have invited, will make them clear

in my omeiai capacity i am merely the agent of the United States government, to conduct its affairs under the limits which its constitution and laws impose. I cannot recognize any national or civil power not already formally recognized by my government, unless especially authorized to do so by the instructions of the εx ecutive of the United States. For this reason I was unable to receive officially the representatives of the revolutionary government and endeavored to make that inability clear to the distinguished gentlemen with whom I had the pleasure to converse a few evenings since. You will bear witness that my course throughout my entire official connection with affairs here has been consistent, and it has pained me that I have not been able to receive and answer communications of the abinet officers of the government at Maolos, fearing that I might be erroneously ch. rged with lack of courtesy.

Permit me now briefly, general, to speak of the serious misunderstanding which exists between the Philippine people and the representatives of the United States government and which I hope that our commissioners, by a thorough discussion, may be able to dispel. I sincerely believe that all desire peace and harmony, and yet by the machinations of evil disposed persons we have been influenced to think

that we occupy the position of adversaries. The Filipinos appear to be of the opinion that we meditate attack, while I am under the strict orders of the president of the United States to avoid conflict in every way possible. My troops, witnessing the earnestness, the comparatively disturbed and unfriendly attitude of the revolutionary troops and many of the citizens of Manila, conclude that active hostilities have been determined upon, although it must be clearly within the comprehension of unprejudiced and reflecting minds that the welfare and happiness of the Philippine people depends friendly protection of the United States. The hand of Spain was forced, and she has acknowledged before the world that all her claimed rights in this country have departed by due process of law. This treaty acknowledgment, with the conditions which accompany it, awaits ratification by the senate of the United States, and the action of its congress must also be secured before the executive of that government can proclaim a definite policy. That policy must conform to the will of the people of the United States expressed through its representatives in congress. For that action the Philippine people should wait, at least, before severing the existing friendly relations.

I am governed by a desire to further the interests of the Philippine people and shall continue to labor with that end in view. There shall be no conflict of forces if I am able to avoid it, and still I shall endeavor to maintain a position to meet all emergencies that may arise

Permit me to subscribe myself, general, with the highest respect, your most obedient servant.

E. S. OTIS, Major General United States Volunteers, Commanding.

General Otis says the negotiations between the two commissions reached no conclusions, as the insurgent members could not submit any formulated statement which they were able to maintain. They presented, as the desire of the insurgents, absolute independence under the protection of the United States, but the nature and scope of the protection wished for they could not explain, and the conferences resulted in materials, saying that he felt an artist the drug tank and presently returned failure. In the latter part of January the insurgents became aggressive, interfering with the American troops, other letter to Aguinaldo, calling attention to the arrest by Filipinos of some American soldiers and a newspaper correspondent, and requesting an explanation. General Otis' letter added

I am doing everything possible to preserve the peace and avoid all friction until the Philippine people can be made fully acquainted with the sentiments and intentions of the American government, when I am confident that they will appreciate the endeavors of the United States and will again look upon that country as their friend and protector. I also fully believe that the present unrest is the result of machinations of evil disposed per-

Aguinaldo replied that the men were arrested inside of his lines for breach of a decree forbidding foreigners to approach the insurgent lines. In a vein of sarcasm he added:

I must state that in consideration of the friendship of the Philippine people for the Americans the said soldiers have not been imprisoned, but detained in accordance with the spirit of the decree of Oct. 20 last. They have been lodged in the Gobierno militar and have been issued the daily rations of our officers. If they have been uncomfortable, it is due to the excessive sobriety of our race and of our soldiers, who are accustomed to eat but little and to sleep on the hard ground. With these explanations I believe, general, you will understand the motive of the detention of your soldiers today liberated and who have been treated with all due consideration. I therefore hope that your determination may be another motive on which to base our friendly relations with the great American republic, and in consideration of this I also decree the liberty of the correspondent referred

General Otis explains that the Americans were not outside his lines and says he quotes the correspondence merely to show the efforts of the American authorities to maintain peace. He next tells how the American soldiers were openly insulted and how the insurgents had continually labored to strengthen their lines, threatening to drive the Americans out of the island, and how finally, on the night of Feb. 4, the demonstration was made, as told by General MacArthur, which resulted in the killing of a Filipino by an American sentry and the firing on the Americans by the insurgent troops. General Otis closes his report as follows:

The insurgent army had thus succeeded in drawing the fire of a small outpost, which they had evidently labored with all their ingenuity to accomplish in order to justify in some way their premeditated attack. It is not believed that the chief insurgent leaders wished to open hostilities at this time, as they were not completely prepared to assume the initiative. They desired two or three days more to perfect their arrangements, but the zeal of their army brought on the crisis which anticipated their action. They could not have delayed long, however, for it was

their object to torce an issue perore amer ican troops then en route could arrive at Manila.

The movements of troops during the protracted engagement which followed, and their success at every point are described in the accompanying reports of the commanding generals of division. transmit herewith copies of the most important telegraphic instructions sent from ese headquarters to the different organizations of the command, from which the gress of events can be quite accurately traced. I cannot speak too highly of the efficiency displayed by the troops under the most trying ordeals, and where all organizations engaged conducted themselves so courageously it would be difficult to undertake special mention. My adutant general, my aids and other members of my staff conveyed many verbal instructions during the day to points most hotly contested and assisted materially in the repeated successes of the battle.

He Got the Name.

As the manager of a large insurance company sat at his desk the representative of another company walked in. The caller was a man to be cultivated, but Mr. H. could not for the life of him think of his name, although he had met him before. But the Chicago man was one of many resources. "I beg your pardon," he said to his caller, after the first hasty greeting, "but if you will excuse me for an instant I will send a message I have just started. It is on a

matter of much importance."

"Certainly," said the caller. "It'll take just an instant," said Mr. H. as he turned to his desk and wrote hastily on a sheet of paper: "What is the name of the man I'm talking to? If you don't know name, find out and answer at once by boy. H." The business man addressed the message to his chief clerk in the outer office and handed it to his office boy, saying: "Hurry and deliver this note, Archie; it is most important.'

Mr. H. busied himself with his papers, and in a few moments the boy returned with an answer. Hastily tearing open the envelope, Mr. H. read, "Jenkins, of the -- Insurance company. Throwing aside the note, the Chicago man turned blandly to his caller. "Ah, that bit of business is off my mind now! In what way can I be of service to you, Mr. Jenkins? It is a long time since we have been honored with a call from the Insurance company."-Chicago

How He Worked the Artist.

This account of how an intimate friend of the great artist Kyosai obtained one of the painter's drawings is from Mrs. Hugh Fraser's "Letters from Japan:

Kyosai always refused if asked outright for a sketch. So his friend began the negotiation by offering the artist an excellent dinner. When Kyosai had drunk deeply and seemed in a mellow humor, his host would call for drawing men often amuse themselves in this way after a feast. The servant then brought an enormous sheet of white paper and spread it on the floor with the brushes and Indian ink beside it.

his guest, sank on his knees and began to draw, apparently abscribed in his occupation, but intentionally producing few weak and incoherent lines. Kyosai watched the feeble effort in silence and growing irritation, and at last jumped up, dashed the tyro aside and tore the brush out of his hand, exclaiming: "Out of the way, you wretched bungler! I will teach you how to draw! And the result was a priceless sketch, which remained in the possession of the wily entertainer.

No Jay Rows In Theaters.

The reason why Washington has no street letter J is perfectly to be understood, for J and I are written so much alike that endless confusion would result. There is another place where the letter J is slighted, and not at all because of its similarity to I. None of the plans of the house to be seen in box offices shows a row of seats lettered J. Theater patrons don't mind sitting with the gods in the gallery, nor yet in row 13, but sit in the "jay" row they will not, and for that reason there is no row marked with that letter .-Washington Post

Quite a Change.

A Chicago public school is going to introduce bathtubs to wash the scholars. This is quite a change from the way children were lathered by teachers in old days -- Philadelphia Times.

THE MUSES.

Of old the muses sat on high And heard and judged the songs of men. On one they smiled who loitered by; Of toiling ten they slighted ten.

"They lightly serve who serve us best, Nor know they how the task was done. We muses love a soul at rest, But violence and toil we shun."

If men say true, the muses now Have changed their ancient habitude And would be served with knitted brow And stress and toil each day renewed.

So each one with the other vies Of those who weave romance or song, 'On us, O muse, bestow thy prize, For we have striven well and long!"

And yet methinks I hear the hest Come murmuring down from Helicon, "They lightly serve who serve us best, Nor know they how the task was done!" -Edith M. Thomas in Dial.

HE STILL LIVES.

A Case Where Medical Science Made a Little Miscalculation.

"Medical science occasionally makes a grand miscalculation," said an old citizen. "I never pass a certain house on lower Prospect street without remembering that 28 years ago a certain noted doctor of this town-he died recently-condemned me to death. 'You have but a week to live,' he said.

"This was information of somewhat serious import to me, although, at that time, I didn't much care whether it was a week or a month. But I went to another doctor. 'Are you really frightened?' he asked. 'No,' I said; 'I've got beyond that.' Then he remarked, 'You can't last a month.' Somehow this corroborative testimony didn't satisfy me. Before I got through my search for information I consulted eight doctors. And, by the way, I was hunting through the second week before I made the rounds. Of course they all agreed pretty well. The most liberal man of the lot said I might pull through for a year, but he greatly doubted it. The other medicos gave me from a week to three months.

"Well, sir, I've attended the funerals of five of those doctors, and, please God, I'll see the other three under the sod before I quit.

"Understand me-I was a pretty tough object at that time. A bronchial OUR WORK EMBRACES trouble had worn me to skin and bone. I walked with a crutch and a cane. I could scarcely talk. All the doctors agreed that my lungs were past mending. Five of them said I had but one lung left, and that, they claimed, was on its last legs.

"Well, when I went to the ninth doctor, I was mad clear through. I knew he didn't have a blessed idea concerning my case. But he tried hard to look knowing and went back to his littic fancy taking possession of him. No with a neat package wrapped in white one was surprised, as Japanese gentle- paper. I handed him the \$2 he demanded and walked away. 'Here,' he said: 'you've forgotten your medicine.' turned back. 'No, I haven't,' I said hotly; 'I left it there purposely. I went home, chucked Our Type. every drug into the ash barrel, staid out in the open air all I could, wasn't the least bit careful about myself, worked about the house every day until exhausted and began to get better. Expect a Settlement of Alaskan Dispute.

CHAMBERLAIN SUBMITTED PLANS.

Known In Washington That Arrange. meets For a Modus Vivendi Were Receiving Choate's Attention-If One 1s Arranged It Will Improve Situation.

LONDON, June 8.-A high authority

After the interview which the United States ambassador, Mr. Joseph Choate, held with the Marquis of Salisbury, at the foreign office, the lines of a prospective settlement and for carrying on the discussion in the high commission were talk. formally submitted by the secretary of state for the colonies, Mr. Joseph Cham-

Washington, June 8. — Officials learned the details of the latest negotiations in London, referred to in cable dispatches, and Secretary Hay and the British charge d'affaires, Mr. Tower, conferred on the subject. The details of the proposition were not made public.

It is known that the arrangements for a modus vivendi to govern the relations of the United States and Canada on the Alaskan boundary is receiving a great Alaskan boundary is receiving a gland deal of Ambassador Choate's attention. ! Clark Ordered to Proceed by a Metallic The basis for the temporary delimitation of the boundary in the neighborhood of the passes leading into the Klondike from the Lynn canal will, if the present effort succeeds, be on White pass on the east and on Chilkoot pass in the middle, at the points where the Canadian customs houses were established about 18 months ago, On the Dalton trail the point has not yet been selected and the Canadians want a good

While Pyramid harbor is not insisted upon at this juncture, the Canadians' claim in this quarter includes the important Indian village of Klukwan, a town that has long been under the protection of the United States, and which our government is indisposed to surrender, even temporarily, into Canadian control. If this difficulty can be solved and a divisional point located on the Dalton trail there is no doubt that a modus will be the outcome. This would remove the chances of hostile collisions on the border and postpone until calmer feelings prevail, the permanent settle-ment. With this Alaskan boundary controversy removed from the subjects for consideration by the joint high commission there is every reason to believe that a treaty can be framed satisfactory to both parties in time for submission to the senate at its next session.

It is said, however, that too much assurance should not be taken that a complete accord is certain. The officials agree with the London view that the outlook is rather brighter, because negotiations are on again, but they qualify this by saying that the agreement is not yet concluded, and that when concluded it will still leave much to be

settled by future negotiations. In view of the fact that the protocol recording the proceedings of the joint high commission in Washington on Feb. 18 last has been made public in the Canadian legislature and an abstract was published in London as well as in this country, the state department gave

out the entire protocol. The record shows that the joint commission met at about 10 o'clock that morning; that the British side proposed arbitration and that the Americans accepted the proposition in general, using it as a basis for a treaty, as offered by the British. However, it is shown that when the Americans offered an amendment the British side promptly refused to accept it, and, without affording further opportunity for the erection of an arbitration treaty, stopped the negotiations and referred the matter to their own government.

Arbitration Plan of Russia.

THE HAGUE, June 8.—Russia's scheme for a permanent arbitration tribunal contemplates the institution of a certain number of years, to which will be submitted the obligatory arbitration cases enumerated in article 10 of the Russian prsject, unless the powers in the conflict agree upon a special tribunal to settle their differences.

Said Glucose Trust Threatened Him.

CHICAGO, June 8.—Senator Mason of the pure food commission says as a result of the investigation a bill will be prepared, compelling manufacturers to label goods what they are; for instance chicory must not be labeled coffee, but chicory. He said that, on account of the investigation, the Glucose trust had threatened to ruin him.

Evidently Murdered by Robbers.

CHICAGO, June 8 .- Martin Meier, a wealthy and eccentric Swiss, was found dead in a house on Fifty-seventh street which he occupied alone. He was evidently murdered for the purpose of robbery.

Quesada Appointed Commissioner. HAVANA, June 8,-Senor Quesada has been appointed commissioner to the United States government.

RAILROADERS ADJOURNED.

Speeches Heard and a Picnic Held at Cumberland-Next Meeting at Connellsville.

CUMBERLAND, Md., June 8 .- After a secret session of several hours' duration the railroad men's convention adjourned to meet in August of this year in Connellsville, Pa. Matters looking to the betterment of the condition of the railroad employe were talked over, among them being a project to secure positions for men who are crippled white attending to their duties, at a salary commen-

League Committee-Tarvin Chosen Chairman.

CINCINNATI, June 8.—At the convention of the Bimetallic League of the Ohio valley in Louisville last week the following committee was appointed to confer with the national Democratic committee at its meeting in Chicago, July 20: James P. Tarvin, Covington; John T. Altgeld, Chicago; George Fred Williams, Boston; E. B. Finley, Bucyrus, O.; John Overmeyer, North Vernon, Ind.; W. G. Femonin, Louisville; Allen W. Clark, Greensburg, Ind.

This committee met in Covington and organized with Judge Tarvin as chairman and Allen W. Clark as secretary. A majority of the members of the comwittee were present and the others voted by telegraph. This is the committee of the league on organization and Secretary Clark was directed to proceed with his work in organizing clubs and to prepare such data as the commit tee may be able to present to the national committee at the joint conference in Chicago, next month.

A WAGE CONFERENCE.

Amalgamated Men and Manufacturers Held a Conference.

DBTROIT, June 8.—The wage committee of the Amalgamated Association of Iron, Steel and Tin Workers and representatives of the iron and steel manufacturers returned to Detroit and began their final conference upon settlement of the wage scales for the coming year. Eighteen of he workers, including President Shaffer and Secretary and Treasurer Williams, are present. Following are the iron and steel men:

James Nutt of the Republic Iron and Steel company, W. E. Taylor of the American Hoop and Steel company and J. S. Shields, all of Youngstown, O.; George D. Wick, vice president of the Republic Iron and Steel company, Chicago; George L. Reis of the Federal Steel and Iron company, Milwaukee.

KRUGER AND MILNER DISAGREED. Conference Held at Bleemfontain Not

Successful. BRUSSELS, June 8 .- Dr. Leyds, the European representative of the Transvaal, received an official dispatch from Pretoria confirming the report of the failure of President Kruger and the British high commissioner, Sir Alfred Milner, to reach an agreement at the

conference just held at Bloemfontain. It is added that, although President Kruger offered important concessions, he made them contingent upon the British acceptance of the principle of arbitration on the differences existing between Great Britain and the Transvaal. This Great Britain heretofore has invariably refused on the ground that it would be an acknowledgement of the equalities of the two countries.

New York to Get Kidnapers.

New York, June 8.—Bella Anderson, alias Carrie Jones, the kidnaper, was locked up in the Mercer Street station, having been extradited from New Jer-She will be arraigned in the general sessions court. District Attorney Asa Bird Gardiner said that George Barrow and his wife, the kidnapers of Marion Clarke now in jail at New City, would be brought here today and turned ever to the New York authorities.

Senator Jones Felt Much Better.

WASHINGTON, June 8.-A letter was received here from Senator James K. Jones of Arkansas, chairman of the national Democratic committee, who went abroad some time ago for his health, in which he said that he had been so greatly benefited he felt better than he had for the past ten years.

THOMSON'S BODY RESTS

His Funeral Occurred Near Philadelphia Today.

REV. DR. WORCESTER OPFICIATED.

Honorary Pallbearers Were Mostly Men Prominent In the Pennsylvania Directorate-Actual Bearers Railroad Men. Appropriate Minute Was Adopted.

PHILADELPHIA, June 8.—Today the mortal remains of President Thompson were laid to rest in Laurel Hill cemetery. The services were conducted at about 11 o'clock at Corkerhill.

Rev. Dr. Elwood Worcester, rector of St. Stephen's church, officiated. The honorary pallbearers were:

The directors of the Pennsylvania Railroad company, viz: Alexander M. Fox, N. Parker Shortridge, William L. Elkins, Alexander J. Cassatt, Clement A. Griscom, Benjamin B. Comegys, Amos R. Little, William H. Barnes, George Wood, C. Stuart Patterson, Effingham B. Morris, T. DeWitt Cuyler, John P. Green, Charles E. Pugh, Sutherland M. Prevost. The vice presidents of the Pennsylvania Railroad company, viz: John P. Green, Charles E. Pugh, Sutherland M. Prevost. The vice presidents of the Pennsylvania railroad, viz: James McCrea, Pitts-burg; J. T. Brooks, Pittsburg; Joseph Wood, Pittsburg.

Also Philip Cuyler, New York; John L. Cadwalader, New York; John B. Thayer, Sr., Merion; Dr. J. W. Lodge, Merion; Dr. George S. Gerhardt, Ardmore; Dr. S. Weir Mitchell, Philadelphia; Theodore N. Ely, Judge James A. Logan, Wayne McVeagh and E. T.

Postelwaite. The actual bearers will be chosen from strong-armed railroad men who knew and loved their chief because no part of their practical knowledge of railroad or its work was deemed too small for him to study and grasp as well as they. The general office of the company was closed from 10 to 2 as a mark of respect, and a special train left Broad Street station about 10:35 o'clock the immediate friends of the bereaved

railroad held a special meeting and adopted an appropriate to minute on the death of President Frank Thomson. A large number of additional letters

and telegrams of condolence were re son of the martyred president, and a director of the Pullman Palace Car

The minute adopted by the board was largely a review of Mr. Thomson's life and rise from a boy in the Altoona shops to the head of the entire system.

In concluding it reads: "In placing this minute of Mr. Thomson's death on the records of the company the board is but attempting to do justice to the exceptional ability, devotion to duty, keen perception, sound judgment and prompt execution which made him so important a factor, not only in our own councils but in the deliberations of the trunk lines and other important railway assemblages, as well as to the charming traits of personal character that won for him the affection and esteem of his associates, and make his loss one to be deeply and widely de-

THOMSON'S SUCCESSOR.

Reported Green Is to Be Promoted and Will Accept.

PHILADELPHIA, June 8. - It was learned, from what is believed to be a trustworthy source, that when the directors of the Pennsylvania railroad fill the position made vacant by the death of President Frank Thomson, they will make no departure from the time-honored custom of advancing the next in rank of the executive officers of the company. This would result in the election of First Vice president John P. Green to the presidency, and from the same source of information it is learned that Mr. Green will accept the place. Second Vice President Charles E. Pugh will be made first vice president and Third Vice President S. M. Prevost will be made second vice president.

A special meeting may be called to fill the vacancy on either Friday or Saturday of this week.

WERE HEALED THROUGH PRAYER. Nearly Every Member of a Congregation

So Testified In Boston. Boston, June 8 .- The Christian Science gatherings in this city, beginning with the communion services last Sunday, ended with the usual weekly testimonial meeting last night, which

was held in Tremont Temple. Judge S. J. Hanna, who presided, asked those in the audience who knew of a certainty that they had been healed through Christian science to rise. Practically everyone in the audience arose, and a similar response was made each their belief in "Almighty God as the suddenly in this city of heart failure.

omy saving power in their lives," "belief in Jesus Christ absolutely and unqualifiedly," and "in the power and efficiency of prayer to heal the sick as well as to destroy sin."

WILL TOUR PHILIPPINES.

Prof. Schurmen on the Gunboat Bennington lo Make a Voyage In Southern Islands.

Manila, June 8.—Prof. Schurman of the Philippine commission was expected to sail from here on Friday on board the United States gunboat Bennington for a three weeks' trip among the southern islands. The gunboat Petrel has also been placed at the professor's disposal, and he will visit Iloilo, Cebu, Negros and Sulu. He expects to investigate the local governments and have talks with the leading natives. He will likely sail for home in July.

The other members of the commission will remain here for some months longer. General Hall's brigade left Morong Tuesday, marching along the lake to Taytay. The troops encountered practically no opposition on entering several small towns, though a few insurgent sharpshooters hung about the flanks of the brigade.

Morong, which is an important port, will be garrisoned temporarily by the North Dakota regiment and the Fourth cavalry.

TENTH SOON TO START.

Corbin Said All Volunteers Would Leave Before July 1.

Greensburg, Pa., June 8.-G. N. Bailey of South Greensburg, who has two sons in the Tenth regiment, Privates J. R. and W. N. Bailey, a few days ago wrote to the war department asking the probable date of the volunteers' home coming. Assistant Adjutant General Carter sent this reply:

"The Tenth Pennsylvania regiment of volunteers is now under orders to return to the United States for muster out, but the department is unable to fix the date for its sailing. However, it is safe to say that all of the volunteer regiments now in the Philippine islands will leave Manila before July 1."

Washington, June 8.-When the attention of the secretary of the navy was called to the very small amount of to carry the officers of the company and money thus far contributed for a home for Admiral Dewey, he said that he family to Merion. There was also a thought it indicated no lack of appreciation of the admiral, but rather an in-The directors of the Pennsylvania chination to wait some expression of opinion from him as to whether such a gift would be agreeable to him or not.

No Regular Naval Transport.

Washington, June 8.—The navy deceived by Vice President Green, among partment ordered the Buffalo to be put them being one from Robert T. Lincoln, out of commission, thus indicating the abandonment of the project of maintaining a regular naval transport service across the Atlantic and by way of the Mediterranean to Manila.

Commander Ackley III.

Washington, June 8 .- A cablegram from Manila to the navy department states that Commander Seth Ackley, who only recently was sent out to take command of the U. S. S. Concord, has fallen ill and been sent to the naval hospital at Yokohama.

CONTINUED HOT WEATHER.

Little Relief Promised For the Country Unless Local Showers Occur.

WASHINGTON, June 8 .- The maximum temperature was 97, a degree hotter than the day before. The thunderstorm which had been promised by the weather bureau as an interlude in the long hot spell apparently was no nearer last night than it was 24 hours before. The city suffered intensely with the heat, but the absence of casualties was considered remarkable. There was still hope for a storm that would clear the air, but that hope was beginning to grow more slender. The general situation was improved on the North Atlan-

tic coast. There was a drop of 32 degrees in 24 hours at Boston, and New York last night was reported 6 degrees cooler than the night before. On the other hand, the maximum temperature had risen at points south, Norfolk and Charlotte being each 98, Lynchbnrg 96 and Nashville and Chattanooga each 94. Little relief was promised the country at large except from local storms, all the indications being that the hot wave was as long lived as it was widespread.

Police Official Accused of Robbery.

CHICAGO, June 8.—The old charges implicating a high police official in the Schrage bond robbery were revived in the criminal court when "Red" Chris Strook was called for trial before Judge Gary. In an affidavit the prisoner swore that if the case was postponed until the next term he would produce a witness who would give testimony clearing himself and fastening the guilt upon Mul-doon, Goslon, "Sleepy" Burke, Baker, Hunt and a police official. The witness is John A. Riley of Philadelphia, formerly a bondbroker in Chicago. As Judge Gary refused to continue the trial, representatives of the defense started for the east and will endeavor to bring Riley back with them.

Augustin Daly Died.

Officers Must Now Pass Medical Examination.

WILL BE STRICTLY ENFORCED.

This to Be Done In Reorganizing the the New Guard of the State-Members of the Examining Board All Were In the Service During the Late War.

COLUMBUS, June 8 .- The national guard officers in Ohio must hereafter pass a mental examination, as well as a physical, before they are commissioned as such. An order was issued. The examining board consists of Major John C. Speaks, Major and Surgeon H. M. W. Core, Captain George Leonard and Second Lieutenant J. M. Woltse, recorder, all of whom were in the service during the late war. This order is entirely new and will be strictly enforced in reorganizing the new national guard of the state.

DEFAULT JUDGMENTS TAKEN.

Action Involving Nearly \$9,500,000 In Hocking Valley Litigation.

COLUMBUS, June 8.—Default judgments were taken in the United States court against the Columbus, Hocking Valley and Toledo Railroad company aggregating nearly \$9,500,000.

The judgments were secured soon after the opening of the June session of the court, and the proceedings were so quietly conducted that very few were aware of the transaction or of the vast interests which were involved in it.

The cases and amounts were: Security Trust company, \$2,111,786; M. E. Ingalls, Jr., et al., \$506,093; M. E. Ingalls, Jr., et al., \$2,276,949

These deficiencies arose under various series of bonds of the railway company, recently sold under foreclosure.

A. V. Rice of Ohio Appointed.

WASHINGTON, June 8 .- A. V. Rice of Ohio was appointed a special agent of the census bureau. to act as purchasing agent. Mr. Rice was a member of the Forty-fourth and Forty-fifth congresses, was a brigadier general of volunteers in the Civil war and is a personal friend of the president. He was stated to be a Gold Democrat.

Zeltner Murder Case.

Toledo, June 8.—The state finished its evidence in the murder ca Zeltner, now on trial at Bowling Green. The defense made a stubborn resistance, yet not denving the killing. Later the defense called its first witness and sought to prove the good character of the accused. It was shown that he frequently carried a revolver.

Sewer Pipe Strike Settled.

STEUBENVILLE, O., June 8.—The big strike of sewer pipe workmen of this valley was settled at a conference and all works have resumed operations. The workmen accepted an advance of 15 cents per day.

A Banquet to Soldiers.

TOLEDO, June 8.—The Sixth Ohio regiment, just returned from Cuba, was tendered a grand banquet and reception by the citizens of Toledo. Covers were laid for ove. 50.

HANNA STILL AT THE HELM.

Emphatically Denied He Would Resign as Republican National Chairman.

CLEVELAND, June 8.—Senator Hanna flatly denied the report sent from Washington that he intended to retire from the chairmanship of the national Relican committee.

"It's a sheer fabrication," said the senator. "I don't see how or by whom the story could have been started. There is no basis for it. I shall retire from the chairmanship when my term is up, of course, but you can say that I fully expect to call the next national convention to order."

Expects Reed to Resign.

NEW YORK, June 8 .- A member of the law firm of Sampson, Thatcher & Barnum said that the published story that Speaker Reed would remain a member of congress, although giving up the speakership, seemed to him ridiculous, although he had not seen Mr. Reed for some time. Mr. Thatcher said that it was his expectation that Speaker Reed would resign from congress.

Could Not Interview Dreyfus.

FORT DE FRANCE, Island of Marsinfque, June 8.—Dispatches from Cayenne said all efforts to interview Drey-fus had been futile. He was under the guard of Captain Cachoux of the gen-darmie and four gendarmes. The prisoner was apparently in good health, but seemed to be fatigued.

WORKING FOR

Residents of East End Want the New School.

COMMEND THE SCHOOL BOARD

The Globe Pottery Will Make Extensive Improvements During the July Shut Down--A Small Boy Sunstruck--To Build a New Kiln at the Brick Yard.

The bond issue for building a school house in this part of the city at present is causing considerable. talk, and if the matter was left to East End residents alone it would carry, probably without a dissenting vote. Everybody is talking about the election and the interest that is being taken in the matter is exceeded in Salineville this morning on business only by a presidential election. This morning three property owners were discussing the matter when they were approached by a reporter. One of the party ventured this assertion:

"The board of education made a wise move when they selected the lot in Erie street. A better location for a like purpose could not be secured in this part of the city. It is true that the lots will cost in the neighborhood of \$1,400 and the building much more, but I would rather pay 10 or 20 cents a day for each of my children to go to school in the East End than to pay a like amount for them to obtain an education in the city proper. I understand that a land company who want to give the board several lots will object to the building being erected in Erie street. That, I believe, is a foolish idea. The matter of building school houses is left entirely with the board, and everyone living here endorses their selection. The women are taking an active part in the issue and if on sale. I am further assured that they could vote Saturday the result prices will be very reasonable. If these would be materially helped. I hope the issue will be carried, for it is more important than the work council did when it improved the hill road."

WILL USE COAL.

The Globe Pottery Company to Make Ex tensive Improvements.

During the month of July some ex tensive improvements will be made at the Globe pottery, but as yet all arrangements have not been completed. The plant will be shut down early next month for a period of about six week and during that time the glost kilns will be generally overhauled and the gas pipes will be taken out and coal used instead. Most all the potteries are using gas in the glost kilns, but the going back to coal by the Globe company will no doubt be followed by other plants. All the machinery will be overhanled, and minor improvements will be made in every department.

TO DOUBLE THEIR PLANT.

The Brick Yard Will Erect an Additional

Alexander Johnson, superintendent of the brick yard, stated yesterday the erection of an additional kiln would be commenced not later than next week. Mr. Johnson said further that the new company was not going to give out the proposed improvements like C. E. Allen did, but when the capacity of the plant needed enlargement the company would go ahead and say nothing. The brick for the new kiln is now being made at the Salineville works which Mr. Johnson is interested in, and will be shipped to East End probably the first of next week. With the new machinery working, the plant will have almost double its present capacity.

I'll wait for the sale of the Thompson Hill lots.

WELLSVILLE'S PEOPLE.

Claims 8,000, but the Correct Figures Are About 6,500.

That Wellsville has enjoyed a heathly growth during the past two years is evidenced by the enumeration of school youth just completed by O. C. Sinclair, which foots up almost 1,800. This, allowing a ratio of 41/2, will bring our population to 8,100 .- Wellsville Union.

The Union figures somewhat too high. The correct way to estimate on school population is to figure that there are 31/6 people to every child of school age. This would give Wellsville, with 1,743 scholars, a population of 6,100. Figuring 4 people to each male person over 21, the usual way, Wellsville, with 1,799 voters, would have 7,196 of a population. It is therefore safe to figure that the city has about 6,500 people.

RIVER RISING.

The Rains of the Last Few Days Have Caused a Rise.

The wickets at Davis island dam are not yet in position, but they will be within the next 12 hours. At noon yesterday only about 50 wickets needed to be raised. Light rains fell at the headwaters of the Allegheny river yesterday and a slight rise is reported there. The marks at the wharf today were 5 feet and river slowly rising.

Government Officers Stopped the Contractors From Throwing Dirt Into the River. The Chester Residents Anxious to Pay Their Subscription For the New Church.

Contractor McNally has issued an order stating that commencing next Monday evening a force of men will be put to work at six o'clock to work until six o'clock in the morning, making two

When the contract for the construction of the road was secured it was thought that with a single force the road could be completed by September. Since the work has been started this has been found to be impossible and the work will now be rushed both night and day. A large number of gasoline lamps have been secured from a Wheeling firm, and if these had arrived yesterday, as expected, the night shift would have been started last night.

The men to work on the night turn have been hired, and the majority of them have been secured in this city. Practically all the force that will work about the shore opposite Market street Therefore I shall be on the lookout are from Liverpool, and many men to when the East Liverpool Land company work at Kenilworth are from Wellsville. places those Thompson Hill lots on the No rails have been laid and none will

THE M. E. CHAPEL.

Money Has Been Pledged, but No Collections Made.

Many residents of this side of the river, who some time ago placed their name on a subscription paper for the purpose of assisting in erecting a Methodist Episcopal church, are wondering when they will be asked to pay their amounts. When the matter was agitated several months ago considerable money was pledged and a large number of people wanted the church built at once.

The committee appointed by the official board of the First M. E. church to secure ground for the erection of the building did some work in the matter, but so far the trustees of the church have taken no definite action. It is probable the church will not be built until after the mill is in operation and Chester has more inhabitants than it has at present.

GOVERNMENT OFFICERS

Advised Contractor McNally Not to Throw Dirt Over the Bank

When the United States snagboat E. A. Woodruff tied to the Market street wharf Tuesday Captain Christian Welsh and four other men went across the river and notified the person in charge of the middle shovel that from now on they must not throw any dirt over the bank. This order is seriously interfering with the work of the road, but as it is against the law, other dumping grounds must be looked for. The dump cars will be put in operation within a few days and the trouble will soon be a thing of the past.

A Strong Foundation.

The excavating for the foundation the new mill is progressing rapidly, and Finley Bros., who have charge of the work, will dig the trenches to a depth of 12 feet. This is made necessary on account of the heavy machinery that will be installed. Although a large force of men are at work, it will be several days before the stonemasons can commence work.

The Shovel Broke.

The steam shovel working on the hillside opposite Market street broke yesterday and it will be several days before it will be put in operation. The break was in the machinery about the bucket.

A New Residence.

The carpenters yesterday completed their work about the new residence owned by Samuel M. Newell, and next week it will be occupied by E. J. Johnson and family.

Mrs. Seevers, who is seriously ill at her home in Chester, is somewhat improved over her condition of yesterday. It is now thought she will recover.

will have to be driven in the hillside opposite Market street. The ground at this place is gradually slipping away ou account of the numerous springs, and will be very unsafe for trains to pass over unless some precaution is taken.

The Chester baseball team will cross bats with the Young Men's Christian association team next Saturday. An interesting game is promised.

Among the thousands who have consulted him by mail the case of Mr. Newton B. Blake, of Tiplersville, Tippah Co., Miss., as shown in the following letter indicates the remarkable efficacy of his treatment: "In December 1895 my health began to fail, I tried many different kinds of medicines and the more I took the worse the disease grew. Finally in April when I was busy ease grew. Finally in April when I was busy with the farm work my health got so bad that I could not hold out to work one hour. My breath became short and I was weak and nervous, and oftentimes would spit blood. I was unable to work. I tried one of the doctors in the vicinity but failed to obtain relief. I seemed to grow worse. My father received a book from Dr. Pierce in which I read of a case similar to mine, and decided to write to Dr. Pierce. He recommended me to take his 'Golden Medical Discovery.' After taking six bottles of this remedy I can recommend it as one of the best medicines to build up the system. I am now enjoying good health."

Torpid liver and constipation are surely and speedily cured by Dr. Pierce's Pleasant Pellets. They never gripe. They regulate, tone up and invigorate the liver, stomach and bowels. No substitute urged by mercenary dealers is as good.

WORKED A NEW GAME

The Police Officers Got Next and Are After the Man

WHO WANTED EXPENSE MONEY

Mrs. Isaac Riley, of East End, and Mrs Louis Barth Were Willing to Sell Property, and as a Result the Agent Received \$23 to be Used as Expenses.

Yesterday afternoon the police were notified by Mrs. Isaac Riley, of River avenue, East End, that she had lost \$8 through a man who gave his name as C. H. Halladen. Mrs. Louis Barth, of Oak street lost \$15 through the same way. Although the authorities were given a good description of the man, he is still roaming about some other town. but not Liverpool.

Halladen came to the city several days ago, but from where no one seems to know. Yesterday morning he went to the home of Mrs. Riley, who is the plant if built would employ from 50 to agent of some property owned by John 100 hands and would greatly benefit the K. Crooke, of Croyden, Pa. The individual told Mrs. Riley he represented an insurance company which was buying property in this vicinity for investment and see what they want. purposes. Mrs Riley was told also that he had seen Mr. Crooke and that the property could be purchased for \$1,800 cash, and for Mrs. Riley to give him \$15 of Mr. Crooke's money to be used for expenses that would be connected with the transfer. The woman stated that she only had \$8, and he took the amount stating he would look to Mr. Crooke for the balance. He went away and that is the last that has been seen of him.

Mrs. Riley notified Office White of the transaction and at 5:27 last evening White received a telegram from Mr. Crooke stating that he had never seen the insurance representative and he was evidently a fraud. At 3 o'clock yesterday afternoon the

man went to the home of Mrs. Louis Barth on Oak street and told the same story. He said he had seen Mr. Barth at the potterv and he was willing to sell the property provided his wife was. The price, \$2,800. was to be paid in cash. The asual \$15 expense was given the man and he went away, but has not returned. The matter was brought to light when Mr. Barth returned home and the police were notified.

In each instance a receipt for the amount was given by Halladen.

Officer White yesterday afternoon found that the man had eaten his dinner together with the heat from the bodies at the Cottage restaurant in Second of those present at the commencement, street. HAMLET BOURNE

Died Yesterday at the Residence of His Brother. Hamlet Bourne died yesterday at the

home of his brother, Samuel Bourne.

Deceased was aged 47 years and was born in England. He was a modeler by trade, and was well known here. Yesterday morning when he was called for breakfast he failed to answer, upon investigation it was found that he was dead. The funeral will take place at 2 o'clock tomorrow. Interment at Riverview cemetery.

Rr. Baum's Tribute.

James Baum, of Wellsville, speaking of Bourne's death, said: "By the death of Hamlet Bourne (who formerly worked for me) the potting fraternity has lost one of its brightest members. He was a modeler of no mean ability and had shown by his work in this country that he had good claim to rank as one of the brightest and best of workmen. Descended from a family of potters well known in England, he has enriched this country by his work. It was to be regretted that Mr. Bourne had faults which marred his career, but his faults died with him, and his work will esteem of the potting public and their after studying at South Kensington, London. When he reached this country he medeled a bust of Horace Greeley. which was well spoken of and gave him great fame. It is to be hoped that the example of Hamlet Bourne as a successful modeler will be emulated by some of our American youth, who may be able to produce as good work as he has done."

SEWER PIPE TRUST.

Dos Passos Says It Is a Go, but Such Matters Require Some Time.

John R. Dos Passos in an interview with a New York Commercial reporter yesterday denied the report sent out from Steubenville, that the prospects of the formation of the Federal sewer pipe were poor. He said the first call on subscription had been made and that the response was most favorable.

Frank Eberhardt, of the Pittsburg Fire Clay company, one of the constituent companies, said to a Commercial reporter that the prospects for an immediate transfer of the properties and organization of the Federal Sewer Pipe company were very good. "None of the money has been paid over as yet," he said, "but the belief among the manufacturers is that the deal will be closed shortly. There is no reason, in my opinion, for the circulation of such a report. Steubenville is in the center of the sewer pipe industry, and I know of several of the largest manufacturers there who are heartily supporting the movement."

An Italian named Josef Lascavi, who lives on Short street, near Twelfth, was arrested by Officer Duncan on a charge of throwing away poison. It seems that Dan Forbes, on Twelfth street, owns a cat that has been killing Lascavi's chickens and the Italian has threatened several times to kill the cat when he had a chance. Last evening while Mr. and Mrs. Forbes were sitting on the porch they saw a man walk stealthily to the gate and throw something in the yard. On examination it was found to be poisoned meat. Lascavi was arrested and pleaded not guilty and will be given a hearing tomorrow evening.

Tendency Is Toward Abolition of Depressing Funerals.

NOVEL CEMETERY DEDICATED

Chicago Undertaking Firm Builds Chapel Equipped With Every Convenience For Conducting Funerals. Possibility That Bicycles Will Supplant Carriages.

How to bury the dead without the depressing scenes surrounding such services is a problem which the present generation is rapidly solving. In the east there was dedicated recently a cemetery the object of which is to remove so far as is possible the gloominess of burials. This burying ground is laid out with fountains and attractive custodian informed the king that it was walks. There are no dirt covered impossible to obtain more and that they mounds to cast a chill over those who visit the place, and the services attending the burial of the dead there are of a nature intended to cheer up humanity rather than depress its feelings.

Directly in the wake of this new departure in the east an enterprising undertaking firm of Chicago announces that it soon will place before the public an establishment where funeral services may be conducted as conveniently as from the best appointed home. In connection with its undertaking establishment it has had built a chapel, well furnished, of good size and equipped with all the facilities necessary in performing the last rites over those who have passed away. And all this reform, it is said, is not done for any pecuniary profit to those who have brought about the change, but because the public has demanded such action. People, they say, are beginning to realize that the passing of souls into eternity, while always an occasion for deep sorrow, as a rule is made too depressing by the gloominess which attends the services that are held, and the tendency now, they say, is to have the services made more ethereal and beautiful.

A cozy, well furnished chapel, fully equipped with every convenience for conducting a funeral, with orchestra chairs, pulpit, organ, choirroom and pedestals for the coffin, all permanently placed, is what the Chicago firm has had built in conjunction with its new undertaking establishment. Necessity, they say, has compelled the building of a place where funeral services may be held. In a large city fatal illnesses and accidents are not uncommon among visitors and travelers, and when relatives and friends are hurriedly called from faroff places, as is ofttimes the case, the arrangements for the funeral services must necessarily be hastily

The unsatisfactory conditions and the inconveniences attending occasions of this kind in many instances compel the relatives and friends of the deceased to hold the funeral from the undertaking establishment, and from this class of deaths there has come a crying need for some comfortable, suitable and appropriate place for holding such funerals. Then there are deaths which occur in hotels or in boarding houses and in hospitals when the relatives of the dead person are unable to find a place for the funeral services where privacy may be had and where the gloomy associations of the undertaking establishments are not present. In addition to this, societies, lodges and fraternal orders all have urged the building of such an establishment where services over a brother member may be conducted. The greatest demand, however, has come from residents of apartment houses.

The most unique as well as timely reform which promises to become a feature in the burial of the dead is the doing away with carriages and substituting bicycles as means of conveyance for the dead as well as for the attendants at a funeral. Last year a notice was sent out by an undertaker in Chicago which advertised funerals conducted by wheel to all the leading cemeteries. It was asserted by him that this was the cheapest and best method. For the first time in the history of the country such a funeral was held shortly after the publication of the notice.

"It seems most proper and fitting," said one undertaker when asked regarding such events, "that the remains of those who have been enthusiastic wheelmen during their lives should be conaucted to their last resting places by the aid of a bicycle. The cycle hearse which won'd be used as a substitute for the regular venicle of this kind could be easily built. It could be propelled by six, eight or even more stalwart wheelmen. There could be a few carriages for the mourners and the aged or those who could not master a wheel themselves, and the friends of the decedent could follow on their own wheels.

The step which has been taken in the east in the reform of burials, which is expected to meet with the hearty approval of the public at large, is the introduction of cheerful music and more brightness generally in the burial services, as well as the substitution for the ordinary burying ground of a cemetery, which tends to take from the scene the enstomary chill and gloom. Somerton Hills cemetery, outside of the city of Somerton, Pa., is the first example of

this reform system. The dedication of this cemetery took place recently, and the exercises were witnessed by many.

The "reformers" have had this new cemetery laid out with fountains and public promenades among the graves. The latter, when ready to receive a body, are to be lined with trailing evergreens and surrounded by growing flowers. The unsightly rows of dirt covered mounds will not be known in this burying ground, and everything will be done to make the services attending the burying of the dead as cheerful as is possible. - Chicago Post

The Answer Was Easy.

When King Oscar was at Paris some years ago, he was about seeing the sights incognito. Among other places he dropped in at the official exposition of Sevres porcelain. Here the product of every year was arranged chronologically and with great care. Of some kinds there were full sets, but of blue celeste there were but three pieces, and the were of immense value.

"What!" said the king. "Have you only these three plates of blue celeste?" "That is all.

"Well, then," said his majesty, "I have many more than you."

"You!" said the custodian in amazement. "Who are you?"

"The king of Sweden!"

"May I inquire, your majesty, how many pieces of this exquisite porcelain you have?'

"Hear thou, Nils," said the king, turning to his first marshal, Count Rosen, who accompanied him. "How many have we?"

"Two hundred and fourteen pieces, your majesty.

"Heavens!" cried the astonished custodian. "How can it be possible that you have preserved them all this time?"

PASSING OF THE NIGHTCAP.

Our Catarrhal Troubles Are Largely Due to Its Abandonment.

"If the American people would only put on nightcaps when they go to bed, there would not be near so many cases of catarrhal trouble as there are now,' said a Chicago physician. He continued: "It is well known that as a nation the percentage of catarrhal complaints is greater among us than in any other nation in the world and that there are more cases among men than among women. The reason for this disproportion is the absence of nightcaps and the habit of smoking in the open air. Women, if they smoke at all, do not do so in the open air, and if they do not wear nightcaps they are in a measure protected by their heavier heads of hair. Men, on the contrary, habitually wear their hair close cut, are careless about the temperature of the rooms in which they sleep, and while all the rest of the body is carefully protected the head may be exposed all night to a zero temperature and that at the very time when nature is at its lowest ebb and can do the least to protect itself. If we would begin by nightcapping all our children and induce them to keep up the habit in later years, within a generation or two catarrh would be a comparatively rare disease in the United States.

"Englishmen and the people of the continent know an American by two things-his liberality with money and his habit of hawking and spitting. They cannot understand the latter, as catarrh is an unusual complaint abroad. But nightcaps are not. They are a recognized part of the night toilet throughout Europe, and to this is due the freedom of the people there from a distressing complaint.

"Who ever sees a nightcap in this country? But in England it is so much a matter of course that its great writer, Dickens, frequently mentioned it in order to give the proper touch of realism to his creations." - Chicago Inter Ocean.

A Peculiar Plant.

There is a strange wild plant in Guadeloupe called the "life plant." If a leaf be broken off and pinned by the stem to the wall of a warm room, each of the angles between the curves of the leaf margin soon throws out a numberof very white tentacles, or roots, and soon a tiny new plant begins to sprout, and in the course of a week or two attains a height of two or three inches. When the old leaf shrivels, the new plant is cut off and planted. When carefully cultivated, the life plant pro duces curious red and yellow blossoms. While the plant is native only in a warm country, there is no doubt that it could be successfully grown in any greenhouse, and as a plant freak it certainly is as interesting as the everlasting plant of Mexico. - Cincinnati En-

OTIS FIXES THE BLAME.

Filipino Leaders Responsible For the War.

EFFORTS TO MAINTAIN PEACE.

American Commander Did Everything Possible to Avoid a Conflict. Correspondence With Aguinaldo Before the Outbreak of Hostilities. Our Aims Misunderstood.

The secretary of war recently made public the report of General Otis transmitting the reports of his subordinate officers on the operations around Manila up to April 6. General Otis begins with this statement:

These military operations are fairly well presented in the reports, and I have little to add thereto, but desire particularly to call attention to the rise and development of conditions and circumstances which resulted finally in war. This I deem to be essential in order to correct the somewhat prevailing impression that the government of the United States is responsible through deceit for wrongful action for the present existing hostilities.

To this end he gives a short summary of the Filipino insurrection against zens of Manila, conclude that active hos-Spain, laying stress on the fact that a small band of the natives of Luzon, leaders of the rebellion of 1896, were induced for a monetary consideration the Philippine people depends upon the to leave the island. These men returned friendly protection of the United States. to the neighborhood of Manila after the destruction of the Spanish fleet there, being, as General Otis says, "encouraged without authority to attempt the organization of what they were pleased to denominate an independent government for the Filipino people.

General Otis tells of the landing of Aguinaldo from an American vessel and of the insurgents taking advantage of the active hostilities between the United States and Spain to capture southern points and increase their strength. Independence, General Otis says, was proclaimed by Aguinaldo in August; as early as June he had warned the United States authorities against the landing of its military forces on Philippine soil without first obtaining his consent, because, as he expressed it, "the Filipino people might consider the occupation of Philippine territory by North American troops a violation of their rights. " General Qtis adds

When the United States forces landed from their transports near and to the south of Manila for the purpose of attacking the city, the nction that they were acting as allies of the insurgents and in furtherance of Philippine independence appears to have been conveyed by insurgent leaders

He describes Aguinaldo's efforts to strengthen his lines in preparation for hostilities with the United States during this time and explains the growth of the insurgent movement for independence by saying that in the absence of Spanish authority many able and conservative Filipinos gave adherence to this seemingly de facto government. Many of them withdrew their adherence when the radical element declared its hostility to the United States.

Describing briefly the tension that existed at the time, General Otis includes in explanation of his course some highly important correspondence that passed between himself and Aguinaldo. Early in January, when he was asked by conservative Filipinos to appoint a committee of army officers to meet an insurgent committee and effect a compromise by which peace might be maintained, General Otis refused to recognize an insurgent government, but was willing to negotiate with Aguinaldo or a commission appointed by him. Aguinaldo's response and General Otis' reply are given in the following extracts from the report

Major General E. S. Otis, General of the American Forces of Occupation in Ma-

General-I have been informed after the interview between the commissioners of my government and Mr. Carman that there will be no inconvenience on your part in naming as commanding general representatives that will confer with those whom I will name for the same object.

Although it not being explained to me the reason why you could not treat with the commissioners of my government, I have the faculty of doing the same with those of the commanding general "who cannot be recognized." Nevertheless, for the sake of peace, I have considered it advisable to name as "commanding general" a commission composed of the following gentlemen-Mr. Florentino Flores, Ambrosio Flores and Manuel Arguieles-that they may together represent me and arrive at an accord with those whom you will name, with the object of using such methods as will normalize the actual situation created by the attitude of your government and troops.

If you will deign to attend to said commissioners and through these methods come to some understanding, "if only temporary," that will insure the peace and harmony among ourselves, the Philippine public would reach a grateful

EMILIO AGUINALDO.

To this letter General Otis replied as

Headquarters Department of the Pacific and Eighth Army Corps: Manila, Jan. 9, 1899. General Emilio Aguinaldo, Commanding

Revolutionary Forces, Malolos: General-I have the honor to acknowledge the receipt of your communication of today and am much pleased at the action you have taken. I greatly regret that you have not a clear understanding of my position and motives and trust that my explanation, assisted by the conference I have invited, will make them clear to you

in my omeiai capacity i am merely the agent of the United States government, to onduct its affairs under the limits which its constitution and laws impose. I cannot recognize any national or civil power not already formally recognized by my government, unless especially authorized to do so by the instructions of the executive of the United States. For this reason I was unable to receive officially the representatives of the revolutionary government and endeavored to make that inability clear to the distinguished gentlemen with whom I had the pleasure to converse a few evenings since. You will bear witness that my course throughout my entire official connection with affairs here has been consistent, and it has pained me that I have not been able to receive and anwer communications of the abinet officers of the government at Maolos, fearing that I might be erroneously ch. rged with lack of courtesy.

Permit me now briefly, general, to speak of the serious misunderstanding which exists between the Philippine people and the representatives of the United States government and which I hope that our commissioners, by a thorough discussion, may be able to dispel. I sincerely believe that all desire peace and harmony, and yet by the machinations of evil disposed persons we have been influenced to think

that we occupy the position of adversaries. The Filipinos appear to be of the opinion that we meditate attack, while I am under the strict orders of the president of the United States to avoid conflict in every way possible. My troops, witnessing the earnestness, the comparatively disturbed and unfriendly attitude of the revolutionary troops and many of the cititilities have been determined upon, although it must be clearly within the comprehension of unprejudiced and reflecting minds that the welfare and happiness of The hand of Spain was forced, and she has acknowledged before the world that all her claimed rights in this country have departed by due process of law. treaty acknowledgment, with the conditions which accompany it, awaits ratification by the senate of the United States, and the action of its congress must also be secured before the executive of that government can proclaim a definite pol icy. That policy must conform to the will of the people of the United States expressed through its representatives in congress. For that action the Philippine people should wait, at least, before severing the existing friendly relations.

I am governed by a desire to further the interests of the Philippine people and shall continue to labor with that end in view. There shall be no conflict of forces if I am able to avoid it, and still I shall endeavor to maintain a position to meet all emergencies that may arise

Permit me to subscribe myself, general, with the highest respect, your most obedient servant.

Major General United States Volunteers, Commanding

General Otis says the negotiations between the two commissions reached no conclusions, as the insurgent members could not submit any formulated statement which they were able to maintain. They presented, as the desire of the insurgents, absolute independence under the protection of the United States, but the nature and scope of the protection wished for they could not explain, and the conferences resulted in failure. In the latter part of January the insurgents became aggressive, interfering with the American troops. and finally General Otis addressed another letter to Aguinaldo, calling attention to the arrest by Filipinos of some American soldiers and a newspaper correspondent, and requesting an

explanation. General Otis' letter added I am doing everything possible to preserve the peace and avoid all friction until the Philippine people can be made fully acquainted with the sentiments and intentions of the American government, when I am confident that they will appreciate the endeavors of the United States and will again look upon that country as their friend and protector. I also fully believe that the present unrest is the result of machinations of evil disposed per-

Aguinaldo replied that the men were arrested inside of his lines for breach of a decree forbidding foreigners to approach the insurgent lines. In a vein of

sarcasm he added I must state that in consideration of the friendship of the Philippine people for the Americans the said soldiers have not been imprisoned, but detained in accordance with the spirit of the decree of Oct. 20 last. They have been lodged in the Gobierno militar and have been issued the daily rations of our officers. If they have been uncomfortable, it is due to the excessive sobriety of our race and of our soldiers, who are accustomed to eat but little and to sleep on the hard ground. With these explanations I believe, general, you will understand the motive of the detention of your soldiers today liberated and who have been treated with all due consideration. I therefore hope that your determination may be another motive on which to base our friendly relations with the great American republic, and in consideration of this I also decree the liberty of the correspondent referred

General Otis explains that the Americans were not outside his lines and says he quotes the correspondence merely to show the efforts of the American authorities to maintain peace. He next tells how the American soldiers were openly insulted and how the insurgents had continually labored to strengthen their lines, threatening to drive the Americans out of the island, and how finally, on the night of Feb. 4, the demonstration was made, as told letter J is slighted, and not at all beby General MacArthur, which resulted in the killing of a Filipino by an American sentry and the firing on the Americans by the insurgent troops. General Theater patrons don't mind sitting Otis closes his report as follows:

The insurgent army had thus succeeded in drawing the fire of a small outpost, which they had evidently labored with all their ingenuity to accomplish in order to justify in some way their premeditated attack. It is not believed that the chief insurgent leaders wished to open hostilities at this time, as they were not completely prepared to assume the initiative. They desired two or three days more to perfect their arrangements, but the zeal of their army brought on the crisis which anticipated their action. The caller was a man to be cultivated, but Mr. H. could not for the life of him think of his name, although he had met him before. But the Chicago man was one of many resources. "I beg your pardon," he said to his caller, after the first hasty greeting, "but if you will excuse me for an instant I will send a message I have just started. It is on a matter of much importance."

"Certainly," said the caller. "It'll take just an instant," said Mr. H. as he turned to his desk and wrote hastily on a sheet of paper: "What is the name of the man I'm talking to? If you don't know name, find out and answer at once by boy. H." The business man addressed the message to his chief clerk in the outer office and handed it to his office boy, saying: "Hurry

The reason why Washington has no street letter J is perfectly to be understood, for J and I are written so much alike that endless confusion would result. There is another place where the cause of its similarity to I. None of the plans of the house to be seen in box offices shows a row of seats lettered J. with the gods in the gallery, nor yet in row 13, but sit in the "jay" row they will not, and for that reason there is no row marked with that letter .-Washington Post

Quite a Change.

A Chicago public school is going to introduce bathtubs to wash the scholars. This is quite a change from the way children were lathered by teachers

THE MUSES.

Of old the muses sat on high And heard and judged the songs of men. On one they smiled who loitered by; Of toiling ten they slighted ten.

They lightly serve who serve us best, Nor know they how the task was done. We muses love a soul at rest, But violence and toil we shun."

If men say true, the muses now Have changed their ancient habitude And would be served with knitted brow And stress and toil each day renewed.

So each one with the other vies Of those who weave romance or song, "On us, O muse, bestow thy prize, For we have striven well and long!"

And yet methinks I hear the hest Come murmuring down from Helicon, "They lightly serve who serve us best, ...
Nor know they how the task was done!"
—Edith M. Thomas in Dial.

HE STILL LIVES.

A Case Where Medical Science Made a Little Miscalculation.

"Medical science occasionally makes a grand miscalculation," said an old citizen. "I never pass a certain house on lower Prospect street without remembering that 28 years ago a certain noted doctor of this town-he died recently-condemned me to death. 'You have but a week to live,' he said.

"This was information of somewhat serious import to me, although, at that time, I didn't much care whether it was a week or a month. But I went to another doctor. 'Are you really frightened?' he asked. 'No,' I said; 'I've got beyond that.' Then he remarked, 'You can't last a month.' Somehow this corroborative testimony didn't satisfy me. Before I got through my search for information I consulted eight doctors. And, by the way, I was hunting through the second week before I made the rounds. Of course they all agreed pretty well. The most liberal man of the lot said I might pull through for a year, but he greatly doubted it. The other medicos gave me from a week to three months.

"Well, sir, I've attended the funerals of five of those doctors, and, please God. I'll see the other three under the sod before I quit.

"Understand me-I was a pretty tough object at that time. A bronchial OUR WORK EMBRACES trouble had worn me to skin and bone. I walked with a crutch and a cane. I could scarcely talk. All the doctors agreed that my lungs were past mending. Five of them said I had but one lung left, and that, they claimed, was

on its last legs. "Well, when I went to the ninth doctor, I was mad clear through. I knew he didn't have a blessed idea concerning my case. But he tried hard to look knowing and went back to his little drug tank and presently returned tic fancy taking possession of him. No with a neat package wrapped in white one was surprised, as Japanese gentle- paper. I handed him the \$2 he demandmen often amuse themselves in this way | ed and walked away. Here, he said: after a feast. The servant then brought | 'you've forgotten your medicine.' I an enormous sheet of white paper and turned back. 'No, I haven't,' I said hotly; 'I left it there purposely. Give it to the next credulous fool whose case The crafty host, without looking at his guest, sank on his knees and began good to get mad. By George! Inside of a year I was in tiptop condition! Look at me now! Sound as a dollar! Yes, sir, science does occasionally slip up with considerable unanimity."-Cleveland Plain Dealer.

Elephants Hate Camels.

Elephants have the bitterest enmity to camels. When the camel scents the elephant, it stops still, trembles in all its limbs and utters an interrupted cry of terror and affright. No persuasion, no blows, can induce it to rise. It moves its head backward and forward. Our Presses. and its whole frame is shaken with mortal anguish. The elephant, on the contrary, as soon as he perceives the camel, elevates his trunk, stamps with his feet, and with his trunk thrown backward, snorting with a noise like She assented knowing that she could the sound of a trumpet, he rushes toward the camel, which with its neck outstretched and utterly defenseless awaits with the most patient resignation the Again the girl summoned all her wits approach of its enemy. The elephant, with its enormous shapeless limbs, "Are you proposing to marry me?" she tramples on the unfortunate animal in such a manner that in a few minutes it is scattered around in small fragments.

The Brother Qualified It.

At a Georgia camp meeting a good brother continually repeated in the course of a long prayer:

"Lord, send the mourners up higher! Send 'em up higher right away!

A storm was brewing outside, and as the hurricane swept down on them the brother qualified his closing petition

"But not through the roof, Lord! Don't send 'em through the roof! That would be too high!''-Atlanta Consti-

One Cent Car Fare In Italy.

Electric power has been introduced on all the street railways in Milan, Italy, and the directors have tried the experiment of reducing the fare from the equivalent of 2 cents to 1 during the rush hours-7 to 9 a. m. The effect was a gain of over 50 per cent over previous receipts for that period of time, three passengers being carried at 1 cent for every one carried at 2 cents. The innovation will be made permanent .- New York Press.
